Memo:
To: Task Force coordinators and advisory committee
From: Ann
Re: Next steps.

1. Project on land and agrarian reform in South Africa, using the Task Force model.

You may recall that we asked Dan to give us a copy of his proposal so we could learn from the form he used. Here it is.

Our discussions at Seattle showed we really have some good ideas. Now we need to get them funded.

You will note that Dan’s proposal was made, not only in his name, but that of several South Africans. It provides background information, and detailed information as to who will participate, the research organization, method and time table. It also spells out the specific products of the research and plans for dissemination.

If you have any questions, I am sure Dan would be glad to have you call him (see first page of document).

If you want funding for your project for the summer months, you probably should get it out to the foundations or funders by January or so.

2. Panels for next ASA meeting, to be held in Boston, November, 1993:

By March 15, we must submit our proposed panels, roundtables, or whatever to ASA program committee. We need to decide if we liked the format at Seattle, all together on one day in one room; or would we prefer to have our workshops or panels scheduled separately like last year.

Do you have any other proposals for improving our presentations at the ASA meeting? Please let me know and I’ll make the arrangements.

Meanwhile, HAPPY NEW YEAR!
