CHAPTER I

INTRODUCTION

Of the vital factors in daily life which have a controlling influence on the maintenance of health -- diet, clothing, rest, exercise -- probably the last named has suffered most from modern civilization. Recognizing this, the Young Women's Christian Association aims, through scientific study of the needs of modern girls and women, to adapt the physical activities to the special needs of the sex as well as to the age of its groups. Its educational policy has been to develop a program suited to the girl, rather than to advocate any special system.

In relation to modern trends in education, the YWCA has always depended upon the value of the informal activities program as against the formal disciplinary work. Originally, this brought criticism upon its physical education work, for outside leaders felt that this recreation type of gymnastics did not rank with the formal type given in schools. Today, it is evident that this pioneering work of the YWCA was ahead of the times in promoting recreational,

C

CHAPTER 10

The first part of the book is devoted to a study of the history of the English language. It begins with a discussion of the Anglo-Saxon period, and then goes on to discuss the Middle English period. The author discusses the influence of French and Latin on the English language, and the development of the English lexicon. He also discusses the development of English grammar and syntax, and the influence of the printing press on the English language.

The second part of the book is devoted to a study of the history of the English language. It begins with a discussion of the Anglo-Saxon period, and then goes on to discuss the Middle English period. The author discusses the influence of French and Latin on the English language, and the development of the English lexicon. He also discusses the development of English grammar and syntax, and the influence of the printing press on the English language.

C

informal physical activities, now generally accepted as essential in modern physical education.¹

Many physical educators do not realize the excellent work that the YWCA's have done and are doing in the field of Physical Education or Health Education.

It is thought by many that the term YWCA means a swimming pool, a rooming house, or a place of rest for retired spinsters.

This great organization satisfies many other needs, particularly the need of physical activity.

1 - Edith M. Gates, Health Through Leisure Time Recreation
The Woman's Press, New York, 1931 pp 61, 62.

Brief Background of the Early History of the Young Women's
Christian Association in America

The first YWCA in the United States was located in Boston, Massachusetts (1877), offering calisthenics to young women who came to the city to work. The classes were taught by one of the boarders in the only available place, the residence parlor. This program met with approval from the girls, who had come from outdoor lives and were not used to the confinement of the city. From this small group in Boston, the YWCA, one of the largest women's organizations in the world, got its start.

1

Mabel Tuggle said:

At first the YWCA health program was called physical education and consisted mainly of gymnastics. Girls were taught to build their bodies by exercising on pulley weights, taking calisthenics by standing up straight with shoulders back and beating their chests with clenched fists.

A little later, YWCA physical education took the form of "Delsarte", in which young women were urged to take a course of lessons in exercise, which consisted chiefly of throwing the weight on the ball of the foot and with the wrist leading and the eye following the hand, going rhythmically through classic postures of the torso, accompanied by soft, sad, slow music.

At this time there were three creative physical directors to whom the Association owes a great debt of gratitude: Hope Narey in Boston, Mary S. Dunn in Kansas City, and Abbey S. Mayhew in Minneapolis. Mary Dunn (a student of Dr. Anderson

at Yale), who went to Kansas City as general secretary and physical director was a leader in the Middle West.

Minneapolis also realized the need for physical activity and wanted Abbey Shaw Mayhew, a Sargent graduate, to join them, but they had neither money nor facilities. She did, however, go to Minneapolis in 1890 and opened private classes until the Association was challenged for not having served the industrial girl. The Association knew that the working girl could be reached under her leadership, and appointed her as Director in 1892. For many years she continued to pioneer for the YWCA, even into foreign lands.

The organization began to grow rapidly and in 1905 swimming pools were built in Buffalo, New York and Montgomery, Alabama YWCA's. Soon a swimming pool came to be almost a requisite in a city YWCA building.

Gates said:

In these early days the emphases were no doubt on exercise and systems, on marching, calisthenics, and drills, on Indian clubs, dumb-bells and exhibitions, yet the germ of the future plant was certainly in those small beginnings. The fundamental needs of girls have changed in accordance with civics, economics, or educational changes, but the fundamental principles of health and their part in promoting the well-being of girls were understood at the very start of this women's organization.

In 1906 the present united movement, the Young Women's Christian Association of the United States of America was organized with Miss Grace H. Dodge as the guiding and unifying spirit.

Then came Dr. Anna L. Brown, secretary of the International Board, to assume the national leadership for the physical program of this new united women's organization.

Palmer said:

The YWCA's program, early called physical education, was changed in 1920 to health education. It has continued to have concern for the health of the community and those conditions which eventually reach out to affect girls and women through their working conditions, child and maternal health, housing, and leisure time opportunities.

This study shows the type of a physical education program the YWCA offers today.

Purpose of the Study

The purpose of this study is to find out what the Eastern YWCA's are offering for a Physical Education Program.

Page 1 of 1

1. The first part of the document discusses the importance of maintaining accurate records of all transactions.

CHAPTER II

TECHNIQUES AND PROCEDURES

The following procedures were used in conducting this survey.

1.- Selection of YWCA's

It was decided to conduct a survey of the Physical Education Program and Activities of the Eastern YWCA's.

The addresses of the various YWCA's were obtained from the Official Directory of the YWCA.

2.- Questionnaire and Letter

A questionnaire compiled of questions which would help to obtain an insight of the work the YWCA's are doing in physical education was sent to the Executive Director of the YWCA. A letter explaining the reason for the survey was sent with the questionnaire. See Appendix.

3.- Mailing of Questionnaires

A letter and questionnaire were mailed on February 25th; if there was no answer in two weeks another letter was sent on March 13th. See Appendix.

4.- Compilation and Classification of Data

This survey included sixty eastern YWCA's. Fifteen YWCA's were visited personally making this survey more valid and meaningful. Out of the sixty YWCA's surveyed forty-nine returned the questionnaire. Therefore, this study is based on a 81% return. Seven YWCA's returning the questionnaire had no physical education program so the study includes 42 YWCA's.

Annual Report

The following is a summary of the work done during the year.

The first part of the year was spent in the study of the

history of the country and the

development of the industry.

The second part of the year was spent in the study of the

present conditions of the industry.

The third part of the year was spent in the study of the

future of the industry.

The fourth part of the year was spent in the study of the

present conditions of the industry.

The fifth part of the year was spent in the study of the

future of the industry.

The sixth part of the year was spent in the study of the

present conditions of the industry.

The seventh part of the year was spent in the study of the

future of the industry.

The eighth part of the year was spent in the study of the

present conditions of the industry.

The ninth part of the year was spent in the study of the

future of the industry.

The tenth part of the year was spent in the study of the

The complete study was surveyed first and is included at the beginning. The YWCA's were then broken down into five groups. Group I includes YWCA's in the cities with a population of 1,000,000 or more; Group II, 500,000 to 1,000,000; Group III, 100,000 to 500,000; Group IV, 50,000 to 100,000; Group V, less than 50,000.

Group I has three cities; Group II, five cities; Group III, seventeen cities; Group IV, ten cities; Group V, seven cities.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy auditing of the accounts.

Furthermore, it is noted that regular reconciliation of the books is essential to identify any discrepancies early on. This process involves comparing the internal records with bank statements and other external sources.

The second section covers the various methods used for recording transactions, including the double-entry system. This method ensures that the accounting equation remains balanced at all times.

In conclusion, the document stresses that diligent record-keeping is the foundation of sound financial management. It provides a clear framework for how to approach these tasks effectively.

CHAPTER III

SURVEY OF FORTY-TWO YWCA'S

In Table I, thirty-five YWCA's reported swimming in the autumn, or eighty-three percent of the total number surveyed; eight reported fencing, or nineteen percent; five reported indoor golf, or twelve percent; twenty-eight offered square dancing, or sixty-seven percent; twenty conducted classes in modern dancing, or forty-eight percent; thirty-six offered ballroom dancing, or eighty-six percent; sixteen reported archery, or thirty-eight percent; fourteen reported bowling, or thirty-three percent; seventeen offered indoor tennis, or forty percent; thirty-four reported badminton, or eighty-one percent; twenty-four reported volleyball, or fifty-seven percent; nine offered horseback riding, or twenty-one percent; three reported tennis-quoit, or seven percent; twenty-one reported rhythmic, or fifty percent; and thirty-eight reported gymnastics, or ninety-one percent.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. This includes not only sales and purchases but also the flow of cash and the collection of receivables. Proper record-keeping is essential for the preparation of financial statements and for the identification of potential areas of concern.

2. The second part of the document focuses on the analysis of the financial data. This involves comparing the current period's performance with that of the previous period and with industry benchmarks. Key ratios such as the current ratio, the debt-to-equity ratio, and the return on assets are calculated and interpreted. The goal is to identify trends, strengths, and weaknesses in the company's financial position.

3. The final part of the document provides a summary of the findings and offers recommendations for improvement. Based on the analysis, it is suggested that the company should focus on reducing its inventory levels and improving its collection of receivables. Additionally, the company should consider diversifying its product line to reduce its dependence on a single market.

Section 1: Introduction and Overview

This document provides a comprehensive overview of the project's objectives, scope, and key findings. It is structured to facilitate a clear understanding of the research methodology and the results obtained.

Section 2: Methodology and Data Collection

Methodology	Data Collection	Analysis
Qualitative	Interviews	Thematic Analysis
Quantitative	Surveys	Statistical Analysis

The methodology employed in this study is a combination of qualitative and quantitative approaches. Data was collected through interviews and surveys, and analyzed using thematic analysis and statistical methods.

Section 3: Results and Discussion

The results of the study indicate that there is a significant correlation between the variables studied. The findings are discussed in detail below.

Variable	Value	Significance
X1	0.5	p < 0.05
X2	0.3	p < 0.01
X3	0.7	p < 0.001
X4	0.2	p < 0.05

The results of the study are consistent with the theoretical framework and provide valuable insights into the research area.

In Table VIII, items included on physical examinations are tabulated with the percent in each group.

In Group 1, three YWCA's, or one hundred percent of the total surveyed in this group, included blood pressure, ears, eyes, heart, lungs, nose, throat, posture, and skin; two, or sixty-seven percent, included feet, height and weight, operation in last five years, and tuberculosis test; and one, or thirty-three percent, reported the use of the Standard Form.

In Group 2, five YMCA's, or one hundred percent of the total surveyed, included blood pressure, ears, eyes, feet, heart, height and weight, nose, throat, and tuberculosis test; four, or eighty percent, included lungs, operation in last five years, posture, and skin; and three, or sixty percent reported the use of the Standard Form.

In Group 3, fifteen YWCA's, or eighty-eight percent, included nose, throat, and skin; fourteen, or eighty-three percent, included ears, eyes, feet, heart, height and weight, lungs, and posture; thirteen, or seventy-seven percent, included blood pressure; twelve, or seventy-one percent, included operation in last five years; eight, or forty-seven percent, included tuberculosis test; and three, or eighteen percent, reported the use of the Standard Form.

In Group 4, ten YWCA's, or one hundred percent of the total surveyed, included blood pressure, ears, eyes, feet, heart, height and weight, lungs, nose, posture, and skin; nine, or ninety percent, included throat; seven, or seventy percent,

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. The text also mentions the need for regular audits to ensure the integrity of the financial data. Furthermore, it highlights the role of the accounting department in providing timely and accurate information to management for decision-making purposes.

In addition, the document outlines the procedures for handling discrepancies and errors. It states that any identified mistakes should be promptly investigated and corrected. The text also discusses the importance of maintaining proper documentation for all financial activities, including bank statements and tax returns. Moreover, it mentions the need for clear communication and collaboration between different departments to ensure the smooth flow of information and resources.

The final section of the document provides a summary of the key points discussed. It reiterates the importance of accuracy, transparency, and regular communication in financial management. The text concludes by stating that these principles are essential for the long-term success and stability of the organization. It also mentions that the accounting department is committed to providing high-quality services and support to all stakeholders.

included operations in last five years; four, or forty percent, included tuberculosis test; and three, or thirty percent, reported the use of the Standard Form.

In Group 5, five YWCA's, or seventy-two percent of the total surveyed, included blood pressure, ears, feet, heart, height and weight, lungs, nose, throat, and skin; four, or fifty-seven percent, included eyes, operations in last five years, and posture; two, or twenty-nine percent, included tuberculosis test; and none reported the use of the Standard Form.

* Percent not included in total

In Table XI, twenty-nine YWCA's reported contract bridge, or sixty-nine percent of the total surveyed; thirty-seven reported crafts, or eighty-eight percent; twenty-seven reported dramatics, or sixty-four percent; twenty-five reported preparation for marriage, or sixty percent; twenty-six reported health instruction, or sixty-two percent; twenty-seven reported sewing, or sixty-four percent; twenty-six reported clothes and cosmetics, or sixty-two percent; eighteen reported music, or forty-three percent; nineteen reported painting, or forty-five percent;

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the integrity of the financial system and for the ability to detect and prevent fraud.

2. The second part of the document outlines the specific procedures that must be followed when recording transactions. This includes the requirement to use standardized forms and to ensure that all entries are clearly legible and accurately reflect the underlying transaction.

3. The third part of the document addresses the issue of reconciling accounts. It states that all accounts must be reconciled on a regular basis to ensure that the recorded balances agree with the actual balances. Any discrepancies must be investigated and resolved promptly.

4. The fourth part of the document discusses the importance of internal controls. It notes that a strong system of internal controls is necessary to minimize the risk of error and to ensure that all transactions are properly authorized and recorded.

5. The fifth part of the document concludes by reiterating the importance of adherence to these procedures and the consequences of non-compliance. It states that failure to follow these procedures may result in disciplinary action and may also have legal implications.

6. The sixth part of the document provides a summary of the key points discussed in the previous sections. It emphasizes that the primary goal of these procedures is to ensure the accuracy and reliability of the financial records.

7. The seventh part of the document includes a section on the role of management in ensuring compliance with these procedures. It states that management is responsible for providing the necessary resources and support to ensure that all employees understand and follow the procedures.

8. The eighth part of the document discusses the importance of ongoing training and education. It notes that employees must be kept up-to-date on any changes to the procedures and must receive regular training to ensure that they are able to perform their duties accurately.

9. The ninth part of the document concludes with a statement of the organization's commitment to the highest standards of financial integrity and accuracy. It states that the organization will continue to review and improve these procedures as needed to ensure that they remain effective and relevant.

fifteen reported photography, or thirty-six percent; eight reported theater, or nineteen percent; twenty-three reported choral group, or fifty-five percent; twenty taught pottery, or forty-eight percent; thirteen reported hostessing, or thirty-one percent; and nine reported weaving, or twenty-one percent.

The bottom section of the page contains a summary or conclusion. It discusses the overall findings of the report and provides recommendations. The text is dense and covers several paragraphs.

Chapter IV

(YWCA's in Cities with population of 1,000,000 or over)

GROUP ONE

In Table XII three YWCA's reported swimming in the autumn, or one hundred percent of total surveyed; none reported fencing; two maintained indoor golf or sixty seven percent; two reported square dancing, or sixty seven percent; three reported modern dancing, or one hundred percent; two maintained classes in ballroom dancing, or sixty seven percent; one YWCA reported archery, or thirty three percent; one had bowling, or thirty three percent; three maintained indoor tennis, or one hundred percent; two reported volleyball, or sixty seven percent; two had horseback riding, or sixty seven percent; one reported tenniquoit, or thirty three percent; two featured rhythmic, or sixty seven percent; and three YWCA's reported gymnastics, or one hundred percent of the total surveyed in this group.

Section 1

1. The first part of the document is a general introduction to the subject matter.

The following text discusses the various aspects of the project, including its objectives, scope, and the methodology used for data collection and analysis. It also highlights the challenges encountered during the process and the solutions implemented to overcome them.

Section 2

The second part of the document provides a detailed overview of the results obtained from the study, including statistical analysis and graphical representations of the data.

Category	Value	Percentage
Group A	150	30%
Group B	200	40%

Two YWCA's reported correctives and one reported tap dancing and ballet.

Total Enrollment and Percent Enrolled in Physical Education Program in Group I

The three YWCA's in Group I reported the following enrollment figures:

City A - Total enrollment, 22,382; thirty seven percent of this figure enrolled in

Physical Education

City B - Total enrollment, 8,760; forty five percent in Physical Education

City C - Total enrollment, 6000; fifty percent in Physical Education

Table XV

<u>YWCA</u>	<u>Total Enrollment</u>	<u>Enrollment in Physical Education Program</u>	<u>Percent enrolled in Physical Education</u>
A	22,382	8,208	36.8
B	8,760	3,901	44.5
C	6,000	3,000	50

In Table XVI the activities are reported in order of their frequency. Due to the fact that less than one third of the total YWCA's surveyed recorded enrollment in each activity, the number enrolled does not appear on this table.

Each YWCA listed the five most popular activities for the autumn. Swimming was reported by all three; ballroom dancing, by two; gymn, by two; square dancing, by two; Badminton, by one; and Rhythmics, by one.

Table XVI

Frequency of most popular activities in Group I

<u>Activity</u>	<u>Frequency</u>
Swimming	3
Ballroom Dancing	2
Gym	2
Square Dancing	2
Tennis	2
Badminton	1
Rhythmics	1

In Table XVII the activities are reported in order of their frequency. Due to the fact that less than one third of the total YWCA's surveyed recorded enrollment in each activity, the number enrolled does not appear on this table.

Each YWCA listed the five least popular activities in the autumn. In this group, the activities reported were all different in each YWCA. Archery was reported by one; badminton by one; correctives, by one; folk dancing by one; golf, by one; modern dancing, by one; gymn, by one; posture, by one; sports, by one; and tap dancing, by one.

In Table XIX, three YWCA's in Group I reported condition of balls, nets and apparatus as good; three reported condition of pool as good; three reported sanitary conditions as good; two reported general condition of gym as good and one reported it as poor; and two reported no safety hazards while one reported safety hazards.

Introduction

The purpose of this study is to investigate the effects of the independent variable on the dependent variable. The study is designed to provide a comprehensive understanding of the relationship between the two variables.

The study is organized as follows: Chapter 1 provides an overview of the research, Chapter 2 discusses the theoretical background, Chapter 3 describes the methodology, Chapter 4 presents the results, and Chapter 5 discusses the conclusions and implications.

The study is based on a sample of 100 participants who were recruited from a local university. The data was collected over a period of six months.

The results of the study indicate a significant positive correlation between the independent variable and the dependent variable. This finding is consistent with the theoretical expectations.

The study has several limitations, including a relatively small sample size and a cross-sectional design. Future research should address these limitations by using a larger sample and a longitudinal design.

The findings of this study have important implications for the field of research. They suggest that the independent variable is a key factor in determining the dependent variable.

The study was conducted in accordance with the ethical standards of the research community. All participants provided informed consent before the data collection process.

The data for this study is available upon request. For more information, please contact the author at [email address].

The first part of the paper discusses the importance of the study and the objectives of the research. It highlights the need for a comprehensive understanding of the subject matter and the role of the researcher in this process. The second part of the paper describes the methodology used in the study, including the data collection methods and the analysis techniques. The third part of the paper presents the results of the study and discusses their implications. The final part of the paper concludes the study and provides recommendations for future research.

Section 1

Section 1 of the Act

The first section of the Act provides that the Secretary of State shall have power to make regulations for the purpose of giving effect to the provisions of this Act. The power conferred on the Secretary of State by this section shall be exercisable in relation to any matter which is specified in Schedule 1 to this Act. The regulations made under this section may make such provision as the Secretary of State thinks fit for the purpose of giving effect to the provisions of this Act. The regulations made under this section may also make such provision as the Secretary of State thinks fit for the purpose of giving effect to the provisions of this Act. The regulations made under this section may also make such provision as the Secretary of State thinks fit for the purpose of giving effect to the provisions of this Act.

Annual Report of the Board of Directors

Message

Dear Shareholders,

Chairman

As we look back on the year that has just passed, I am proud of the achievements of our company. We have successfully navigated through a challenging economic environment and have emerged as a stronger and more resilient organization. Our focus on innovation and customer service has allowed us to maintain our competitive edge and secure our future. I thank you for your continued support and confidence in our company.

The Board of Directors has reviewed the financial statements and the report of the auditors. We are pleased to report that the company has achieved a record level of profitability and has maintained a strong financial position. Our strategic initiatives have been implemented effectively, and we are confident that our growth strategy will continue to drive long-term value for our shareholders. We will continue to invest in research and development to ensure that we remain at the forefront of our industry.

I am confident that our strong performance and commitment to excellence will continue to drive our success in the years ahead. We will continue to work hard to create value for our shareholders and to contribute to the communities in which we operate. Thank you for your support and for being part of our journey.

Section 1. The purpose of this act is to provide for the better regulation of the business of insurance companies in this State, and to provide for the protection of the interests of policyholders.

Section 2. The Board of Insurance Commissioners is hereby created, and shall consist of five members, to be appointed by the Governor, one of whom shall be the Chairman.

Section 3. The Board of Insurance Commissioners shall have the honor and power to make, amend, alter, repeal, and rescind rules and regulations, not inconsistent with the provisions of this act, governing the business of insurance companies in this State.

Section 4. The Board of Insurance Commissioners shall have the honor and power to examine the books and accounts of every insurance company doing business in this State, and to require the production of such books and accounts at any time and place.

Section 5. The Board of Insurance Commissioners shall have the honor and power to suspend or revoke the license of any insurance agent or broker who shall be guilty of any violation of the provisions of this act or of any rule or regulation made by the Board.

Section 6. The Board of Insurance Commissioners shall have the honor and power to suspend or revoke the license of any insurance company which shall be guilty of any violation of the provisions of this act or of any rule or regulation made by the Board.

In Table XXIX, five YWCA's in Group II reported condition of balls, nets and apparatus as good; three reported condition of pool as good, one made no report, and one reported it as fair; five reported sanitary conditions as good; four reported condition of gym as good and one made no report; and four reported no safety hazards, one making no report.

Table XXIX

Table XXX showing the enrollment in various groups shows the business girls' group way ahead, as in the survey of all the forty two YWCA's, with an enrollment of 16,211; college group, 6,580; high school, 4,624; elementary, 4,189; professional, 3, 111; industrial, 2, 246; housewives, 1, 549.

Table XXX

Total Enrollment in Various Groups in YWCA's in Group II

<u>High School</u>	<u>Elementary</u>	<u>Housewives</u>	<u>Indus.W.</u>	<u>Business</u>	<u>Pro.</u>	<u>College</u>
4, 624	4, 189	1, 549	2, 246	16, 211	3,111	6,580

In Table XXXI the other activities offered by YWCA's are arranged in order of their frequency in popularity with the percent of total YWCA's surveyed.

EXHIBIT A

The following table shows the results of the survey conducted in 1994. The data are presented in terms of the percentage of respondents who chose each option. The survey was conducted among a representative sample of the general public in the United States. The results are shown in the table below.

Question	Response A	Response B	Response C	Response D	Response E
Q1	55%	30%	10%	5%	0%
Q2	40%	45%	15%	0%	0%
Q3	60%	20%	10%	5%	0%
Q4	35%	40%	20%	5%	0%
Q5	50%	35%	10%	5%	0%
Q6	45%	30%	15%	5%	0%
Q7	55%	25%	10%	5%	0%
Q8	40%	45%	10%	5%	0%
Q9	60%	20%	10%	5%	0%
Q10	45%	35%	15%	5%	0%

The above table provides a summary of the survey results. It is important to note that the percentages shown are based on the total number of respondents who answered the question. The survey was conducted in a confidential and secure manner. The data are intended for informational purposes only and should not be used for any other purpose without the express written consent of the survey administrator.

This document is a confidential document and its contents should not be disclosed to any third party without the express written consent of the survey administrator. The survey administrator is not responsible for any errors or omissions in this document. The survey administrator reserves the right to modify or change the survey at any time without notice.

Health instruction was reported by all five YWCA's in this group, or one hundred percent of the total surveyed; dramatics by four, or eighty percent; music by four, or eighty percent; preparation for marriage by four, or eighty percent; issues of today by four, or eighty percent; sewing by four, or eighty percent; clothes and cosmetics by three, or sixty percent; choral group by three, or sixty percent; contract bridge by three, or sixty percent; crafts by three, or sixty percent; music by three, or sixty percent; hostessing by three, or sixty percent; pottery by two, or forty percent; theatre by two or forty percent; photography by one, or twenty percent; and weaving by one, or twenty percent of the total number surveyed in this group.

* not reported

In Table XXXVI, the activities are reported in order of their frequency. Due to the fact that less than one third of the total YWCA's surveyed recorded enrollment in each activity, the number enrolled does not appear on this table.

Each YWCA listed the most popular activities for the autumn. One YWCA did not report on this question in this particular group.

Swimming was reported by fourteen; Ballroom Dancing by ten; Badminton by eight; Gym by eight; Body Conditioning Exercises by four; Square Dancing by four; Basketball by three;

Ballet by two; Bowling by two; Modern Dancing by two; Tennis by two; Fencing by two; Fund Day by one; Golf by one; Rhythmics by one; Roller Skating by one; and Team Sports by one.

In Table XXXXVI, the activities are reported in order of their frequency. Due to the fact that less than one third of the total YWCA's surveyed recorded enrollment in each activity, the number enrolled does not appear on this table.

Each YWCA listed the most popular activity for the autumn. One YWCA did not report on this question in this particular group.

Swimming was reported by eight; Badminton, by five; Gym by five; Ballroom Dancing by four; Basketball by four; Keep Fit Gym by two; Rhythmics by two; Square Dancing by two; Tap Dancing by two; Bowling by one; Fun Day by one; Modern Dancing by one; Skating by one; and Volleyball by one.

In Table XXXXVII, the activities are reported in order of their frequency. Due to the fact that less than one third of the total YWCA's surveyed recorded enrollment in each activity, the number enrolled does not appear in this table.

Each YWCA listed the five least popular activities in the Autumn. One YWCA did not report on this question in this particular group.

Tennis was reported by four; Archery by three; Badminton by three; Square Dancing by three; Volleyball by three; Basketball by two; Gym by two; Modern Dancing by two; Tap Dancing by two; Bowling by one; Horseback Riding by one; and Life Saving by one.

CHAPTER IX
SUMMARY AND RECOMMENDATIONS

Of the total sixty cities surveyed 75% were surveyed by mail and 25% by personal contact. Forty-two questionnaires were returned from cities with a Physical Education program, or 11.7%. Eleven cities did not return a questionnaire or 18.3%.

From a study of the findings in the preceding pages, it was clearly seen that the YWCA's in the cities with a population over 50,000 are trying to give the modern woman of today a well organized and varied program in physical education plus various other activities.

Swimming and Ballroom Dancing are the most popular activities in all three seasons -- autumn, winter and spring.

Thirty eight percent of the total number enrolled in YWCA's are enrolled in the Physical Education Program.

Modern Dancing and Volleyball are the least popular activities. This may be partly due to the fact that many individuals do not understand the term, Modern Dancing.

Fifty two percent of the YWCA's offer courses on a ten week basis.

Thirty four reported being open all year, or eighty one percent.

Sixty percent of the YWCA's included in this survey employ a person trained in First Aid but no organization employs a registered nurse.

Ten YWCA's use the standard form type of physical examination (included in appendix). More of the organizations

are going to change over to this form of examination this autumn. Two YWCA's reported no physical examination was required.

Almost all the YWCA's in the city proper, population of 50,000 reported good for condition of equipment, swimming pool. Sanitary conditions and condition of gym were also reported good.

Seventy four full time Physical Education workers are employed and one hundred and nineteen part time Physical Education workers. Thirty seven full time Health workers were reported and forty two part time Health workers.

The Business Group has the largest enrollment with the Elementary Group next.

Crafts and Contract Bridge are the most popular activities outside the Physical Education activities.

RECOMMENDATIONS

In considering the findings in the previous chapter, a few recommendations are listed here.

1. That all the YWCA's require a standard form physical examination.
2. That all Physical Education and Health workers be required to have a First Aid card, renewed every three years.
3. That a Registered Nurse be hired in all large YWCA's with large enrollments.

4. That Modern Dancing be explained to the public in order that the women know the type of dancing the term Modern Dance means.

A P P E N D I X

Bradford, Mass.

March 30, 1948

Executive Director
YWCA - 49th Street & Lexington Ave.
New York, N. Y.

Dear Madam:

In cooperation with Dr. Leslie Irwin of Boston University I am conducting a survey of the physical education program and activities of the YWCA's in the East.

Enclosed is a questionnaire and a self-addressed envelope. Would you be kind enough to answer the questions to the best of your ability and return the questionnaire to me within two weeks.

All information will be kept confidential. Your information will be greatly appreciated.

Sincerely yours,

(Miss) Mary Elizabeth Walker
