PS to Ann’s letter:

1. We have the transportation bill and the check bill only in Lao. Surely there must exist English translation of these? It is extremely difficult for us and for the drafters’ major professors (who are supervising their reading in foreign law and experience) to help the drafters unless they have copies in English; and to have these bills translated into English here would be very expensive and time-consuming. If you can possibly find English drafts of these bills, please FAX or express mail them as soon as possible.

2. The electricity bill draft (in English) as received is missing page 6 (containing sections 17-22). Could you kindly FAX us that page as soon as possible?

Many thanks.

Bob.
