UH offering \$1,000 child-care scholarships to employees

Twenty \$1,000 scholarships will be awarded before the end of the year to assist employees of The University Hospital and the Evans Medical Group with their current child-care costs. The scholarships are being made available through previous donations to the Hospital's Child Care Fund, the UH Child Care Fundraising Committee and through a gift from the UH Auxiliary.

This opportunity offered by UH comes as the 1991 Employee Giving Campaign gets under way on Monday, Nov. 4, and as the Hospital and Boston University break ground on a dynamic medical complex on Albany Street, which will include a child-care center

for up to 100 children. Construction of the child-care center is expected to begin in the spring of 1992.

UH and Evans Medical Group employees may apply for the scholarships at a meeting to discuss the future of UH child care on Wednesday, Nov. 20, at 11 a.m., in the Atrium C/D Conference Room. Employees also may apply for the scholarships at Employee Giving Campaign meetings scheduled through Friday, Nov. 8. Scholarship guidelines are available at those meetings or through Peggy Kociubes, UH's child-care coordinator, at x8564.
