### FACULTY\*

#### **Emeritus Professors**

HERBERT C. CLAPP, M.D., *Emeritus Professor of Diseases of the Chest.*  
 J. WILKINSON CLAPP, M.D., *Emeritus Professor of Pharmaceutics.*  
 JOHN L. COFFIN, M.D., *Emeritus Professor of Diseases of the Skin.*  
 NATHANIEL W. EMERSON, M.D., *Emeritus Professor of Gynaecology.*  
 HORACE PACKARD, M.D., *Emeritus Professor of Surgery.*  
 JOHN H. PAYNE, M.D., *Emeritus Professor of Ophthalmology.*  
 FREDERICK B. PERCY, M.D., *Emeritus Professor of Clinical Medicine.*  
 DAVID W. WELLS, M.D., *Emeritus Professor of Ophthalmology.*

#### **PROFESSORS**

ALEXANDER S. BEGG, M.D., 45 Hastings Street, W. Roxbury, *Waterhouse Professor of Anatomy.*  
 HOWARD P. BELLOWES, M.D., 220 Clarendon Street, *Professor of Otology.*  
 J. EMMONS BRIGGS, M.D., 477 Beacon Street, *Professor of Surgery.*

\*The address is Boston, unless otherwise stated.

- PERCY G. BROWNE, M.D., 419 Boylston Street, *Professor of Diseases of the Chest.*  
 ORVILLE R. CHADWELL, M.D., 510 Commonwealth Avenue, *Professor of Pediatrics.*  
 GEORGE H. EARL, M.D., 1138 Boylston Street, *Professor of Obstetrics.*  
 ALBERT W. HERR, M.D., 419 Boylston Street, *Professor of Ophthalmology.*  
 ALONZO G. HOWARD, M.D., 636 Beacon Street, *Professor of Orthopedic and Fracture Surgery.*  
 WESLEY T. LEE, M.D., 220 Clarendon Street, *Professor of Dermatology.*  
 WALTER L. MENDENHALL, M.D., 9 Acacia St., Cambridge, *Professor of Pharmacology.*  
 N. EMMONS PAINE, M.D., West Newton, *Professor of Psychiatry.*  
 HENRY M. POLLOCK, M.D., 82 E. Concord St., *Superintendent of the Massachusetts Homeopathic Hospital.*  
 FREDERICK H. PRATT, M.D., Woodleigh Road, Dedham, *Professor of Physiology.*  
 GEORGE B. RICE, M.D., 270 Commonwealth Ave., *Professor of Laryngology*  
 ALLAN WINTER ROWE, Ph.D., 80 E. Concord St., *Professor of Chemistry.*  
 EDWIN P. RUGGLES, M.D., 420 Washington Street, Dorchester, *Professor of Clinical Obstetrics.*  
 GEORGE R. SOUTHWICK, M.D., 433 Marlboro St., *Professor of Gynaecology.*  
 JOHN P. SUTHERLAND, M.D., 295 Commonwealth Ave., *Professor of Theory and Practice.*  
 WILLIAM H. WATTERS, M.D., 80 East Concord Street, *Professor of Pathology.*  
 DEWITT G. WILCOX, M.D., 496 Commonwealth Ave., *Professor of Gynaecology.*  
 NELSON M. WOOD, M.D., 510 Commonwealth Ave., *Professor of Clinical Medicine.*

#### ASSOCIATE PROFESSORS

- FREDERICK P. BATCHELDER, M.D., 421 Marlborough St., *Associate Professor of Applied Physiology.*  
 DAVID L. BELDING, M.D., 80 East Concord Street, *Associate Professor of Bacteriology.*  
 JOSEPH CHANDLER, Ph.D., 118 Warren St., West Medford, *Associate Professor of Chemistry.*  
 THOMAS E. CHANDLER, M.D., 15 Bay State Road, *Associate Professor of Surgery.*  
 FREDERICK W. COLBURN, M.D., 510 Commonwealth Ave., *Associate Professor of Clinical Otolaryngology.*  
 J. LEROY CONEL, Ph.D., 45 Arlington Street, Newton, *Associate Professor of Anatomy.*  
 SOLOMON C. FULLER, M.D., 220 Clarendon Street, *Associate Professor of Neurology.*  
 WILLIAM A. HAM, M.D., 162 Ashmont St., Ashmont, *Associate Professor of Clinical Obstetrics,*  
 SANFORD B. HOOKER, M.D., 80 East Concord Street, *Associate Professor of Immunology.*  
 CHARLES T. HOWARD, M.D., 510 Commonwealth Ave., *Associate Professor of Surgery.*  
 SAMUEL R. MEAKER, M.D., 587 Beacon St., *Associate Professor of Gynaecology.*  
 LEROY M. S. MINER, D.M.D., M.D., 153 Newbury Street, *Associate Professor of Stomatology.*  
 WILLIAM D. ROWLAND, M.D., 220 Clarendon St., *Associate Professor of Ophthalmology and Instructor in Applied Anatomy.*  
 CONRAD SMITH, M.D., 510 Commonwealth Ave., *Associate Professor of Clinical Laryngology.*  
 HELMUTH ULRICH, M.D., 416 Marlborough Street, *Associate Professor of Clinical Pathology.*

## ASSISTANT PROFESSORS

- ALBERT S. BRIGGS, M.D., 264 Bay State Road, *Assistant Professor of Clinical Medicine.*
- EDWARD S. CALDERWOOD, M.D., 223 Warren Street, Roxbury, *Assistant Professor of Anatomy and Clinical Medicine.*
- MYRTELLE M. CANAVAN, M.D., 11 Tetlow Street, *Assistant Professor of Neuro-pathology.*
- CLARENCE CRANE, M.D., 475 Commonwealth Ave., *Assistant Professor of Surgery.*
- NATHAN H. GARRICK M.D., 416 Marlborough Street, *Assistant Professor of Neurology.*
- MILO C. GREEN, M.D., 15 Bay State Road, *Assistant Professor of Applied Anatomy and Clinical Instructor in Surgery.*
- HARRY L. HALL, M.D., 100 Adams St., Dorchester, *Assistant Professor of Pharmacology.*
- GEORGE N. LAPHAM, M.D., 419 Boylston St., *Assistant Professor of Diseases of the Chest.*
- BRENTON R. LUTZ, Ph.D., 49 Laurel Street, Melrose, *Assistant Professor of Physiology.*
- JOHN A. MACMILLAN, M.D., 1801 Beacon St., Brookline, *Assistant Professor of Dermatology.*
- WILSON F. PHILLIPS M.D., 138 Norfolk Street, Dorchester, *Assistant Professor of Theory and Practice.*
- ARTHUR H. RING, M.D., Arlington Heights, *Assistant Professor of Neurology.*
- EDWIN W. SMITH, M.D., 510 Commonwealth Ave., *Assistant Professor of Clinical Obstetrics.*
- JOSEPH E. STERNBERG, M.D., 100 Boylston Street, *Assistant Professor of Clinical Ophthalmology.*
- WILLIAM K. S. THOMAS, M.D., 1718 Massachusetts Ave., Cambridge, *Assistant Professor of Clinical Surgery.*

- ALICE S. WOODMAN, M.D., 80 East Concord Street, *Assistant Professor of Histology and Embryology.*
- LELAND C. WYMAN, Ph.D., 19 Perham Street, West Roxbury, *Assistant Professor of Physiology.*

## LECTURERS AND INSTRUCTORS

- BERNARD APPEL, M.D., 10 Centennial Avenue, Revere, *Clinical Instructor in Syphilis.*
- HAROLD L. BABCOCK, M.D., 416 Marlborough Street, *Instructor in Clinical Otolaryngology.*
- ALICE H. BASSETT, M.D., 510 Commonwealth Avenue, *Lecturer on Drug Pathogenesis and Clinical Instructor in Medicine.*
- KARL M. BOWMAN, M.D., Psychopathic Hospital, *Clinical Instructor in Psychiatry.*
- CHARLES W. BUSH, M.D., 202 Huntington Avenue, *Clinical Instructor in Laryngology.*
- CECIL W. CLARK, M.D., 306 Walnut Street, Newtonville, *Instructor in Medicine.*
- MARION H. COWPERTHWAIT, A.B., 10 Willoughby Road, Milton, *Instructor in Histology and Embryology.*
- FREDERICK E. CRUFF, M.D., Mass. Hom. Hosp., West Department, *Instructor in Contagious Diseases and Pediatrics.*
- HAROLD E. DIEHL, M.D., 25 Greenleaf Street, Quincy, *Instructor in Clinical Obstetrics and Assistant in Gynaecology.*

- JOHN G. DOWNING, M.D., 784 Beacon Street, *Clinical Instructor in Syphilis.*
- C. A. EATON, M.D., 510 Commonwealth Avenue, *Lecturer on Surgical Pathology.*
- SAMUEL W. ELLSWORTH, M.D., 80 E. Concord St., *Lecturer on Radiology.*
- HENRY M. EMMONS, M.D., 320 Commonwealth Avenue, *Clinical Instructor in Ophthalmology.*
- ELEANOR B. FERGUSON, M.D., 510 Commonwealth Avenue, *Clinical Instructor in Anaesthesia.*
- J. C. V. FISHER M.D., 510 Commonwealth Ave., *Instructor in Obstetrics and Assistant in Gynaecology.*
- JOHN A. FOLEY, M.D., 351 Commonwealth Ave., *Instructor in Clinical Medicine.*
- DAVID I. FRANKEL, M.D., 27 Clinton St., Framingham, *Clinical Instructor in Surgery.*
- R. W. FRENCH, M.D., Malden, *Clinical Instructor in Ophthalmology.*
- MARJORIE FULSTOW, M.D., 74 Fenwood Road, *Instructor in Neuro-Pathology.*
- JOSEPH GOLDMAN, M.D., 491 Commonwealth Ave., *Instructor in Bacteriology and Immunology and Assistant in Medicine.*
- CLIFFORD D. HARVEY, M.D., 510 Commonwealth Avenue, *Instructor in Surgery.*
- JOELLE C. HIEBERT, M.D., Medical Mission, 36 Hull Street, *Instructor in Clinical Obstetrics.*
- RUDOLPH JACOBY, M.D., 270 Commonwealth Avenue, *Clinical Instructor in Dermatology and Syphilis.*
- RICHARD F. JAMES, M.D., 460 Geneva Avenue, Dorchester, *Instructor in Pediatrics.*
- ELMON R. JOHNSON, M.D., Wollaston, Mass. *Clinical Instructor in Laryngology.*
- WALTER E. LANG, M.D., Westborough State Hospital, Westborough, *Clinical Instructor in Psychiatry.*
- CHARLES H. LAWRENCE, M.D., 520 Commonwealth Ave., *Instructor in Endocrinology.*
- MARY A. LEAVITT, M.D., 510 Commonwealth Avenue, *Instructor in Anaesthesia.*
- HARRY J. LEE, M.D., 535 Beacon Street, *Clinical Instructor in Surgery.*
- SAMUEL L. MARNOY, M.D., 353 Commonwealth Avenue, *Instructor in Orthopedic and Fracture Surgery.*
- JACOB M. MASTERS, M.D., 109 Washington Ave., Chelsea, *Instructor in Pharmacology and Assistant in Medicine.*
- CHARLES W. McCLURE, M.D., 483 Beacon St., *Instructor in Gastro-Enterology.*
- DWIGHT O'HARA, M.D., 751 Main St., Waltham, *Lecturer on Therapeutics.*
- ROLAND O. PARRIS, M.D., 636 Beacon Street, *Clinical Instructor in Laryngology.*
- H. C. PETTERSON, M.D., 19 Mt. Vernon Street, West Roxbury, *Instructor in Pediatrics.*
- WILLIAM D. REID, M.D., 491 Commonwealth Ave., *Instructor in Cardiology.*
- JOHN A. ROCKWELL, M.D., 24 Garden Street, Cambridge, *Clinical Instructor in Medicine.*
- LOUIS SCHELLER, M.D., 370 Main St., Brockton, *Instructor in Pediatrics.*
- C. WESLEY SEWALL, M.D., 510 Commonwealth Ave., *Instructor in Obstetrics.*
- J. J. SKIRBALL, M.D., 353 Commonwealth Ave., *Clinical Instructor in Ophthalmology.*
- HOWARD A. STREETER, M.D., Dept of Health, Manchester, N. H. *Lecturer on Public Health.*
- ALBERT B. TOPPAN, M.D., 293 Mt. Auburn Street, Watertown, *Instructor in Pediatrics.*
- SAMUEL N. VOSE, M.D., 15 Bay State Road, *Instructor in Genito-Urinary Surgery.*
- WALDO W. WALKER, M.D., 270 Commonwealth Avenue, *Clinical Instructor in Laryngology.*

## ASSISTANTS AND DEMONSTRATORS

- MAX BAKER, M.D., 32 Shirley Ave., Revere, *Assistant in Medicine.*
- ALMA A. BINASCO, M.D., 74 Bayswater Street, East Boston, *Assistant in Dermatology, Medicine and Gynaecology.*
- WILLIAM H. CLEWLEY, M.D., 924 Beacon St., *Assistant in Orthopedic Surgery.*
- THOMAS E. CONNOR, M.D., 360 Massachusetts Ave., Arlington, *Assistant in Medicine.*
- LEON W. CROCKETT, M.D., 29 High Street, Charlestown, *Assistant in Medicine.*
- CARL A. DAHLEN, M.D., 819 Beacon St., *Assistant in Syphilis.*
- CLARENCE H. DOBSON, M.D., 29 Williston Road Brookline, *Assistant in Medicine.*
- PIERCE J. DUNPHY, M.D., 353 Commonwealth Ave., *Assistant in Obstetrics.*
- ANTON R. FRIED, M.D., Newtonville, *Assistant in Obstetrics.*
- JAMES C. JANNEY, M.D., 205 Beacon Street, *Assistant in Gynaecology and Obstetrics.*
- LEIGHTON F. JOHNSON, M.D., 15 Bay State Road, *Assistant in Applied Anatomy and Laryngology.*
- HAROLD L. LELAND, M.D., 226 Central St., Lowell, *Assistant in Genito-Urinary Surgery.*
- CLEMENT F. LYNCH, M.D., 438 Highland Ave., Malden, *Assistant in Anatomy.*
- WARREN S. SHIELDS, M.D., 2 Curtis Street, West Somerville, *Demonstrator of Pathology and Assistant in Obstetrics.*
- BARNET M. WEIN, M.D., 111 Homestead Street, Roxbury, *Assistant in Applied Anatomy and Clinical Otology.*
- BENJAMIN C. WOODBURY, M.D., 11 Marlborough St., *Assistant in Medicine.*

# BOSTON UNIVERSITY SCHOOL OF MEDICINE

## General Statement

Boston University School of Medicine is a co-educational institution, which was established in 1873. Buildings and endowment of the New England Female Medical College, which had been in existence since 1848, were transferred by Act of the Massachusetts Legislature in 1874. It is at present an integral part of the University and, as such, is responsible to the Trustees.

The School is located in the center of an extensive medical district with excellent opportunities for ward and out-patient instruction. The scientific departments are housed in laboratories which are supplied with modern equipment for teaching and research. As a result of their central location the co-ordination between clinic and laboratory is quite complete.

The course of instruction extends over four academic years of thirty-two weeks each, exclusive of holidays, and is so planned as to emphasize the general training of the student for the practice of medicine. The requirement for entrance is that laid down by the Association of American Medical Colleges with the addition of a modern language. The number of students in the various classes is limited, in order to assure proper instruction and to permit proper utilization of the facilities. While the work of the first two years is largely scientific in character, there is an introduction of a sufficient amount of clinical work to assure a continuity of interest. During the final two years the instruction is largely in wards and out-patient departments, but opportunity for return to the laboratories is offered.

In certain instances colleges of liberal arts allow credit towards the academic degree for work done in the Medical School. This may permit a shortening of the time usually required for this degree.

Library facilities are ample, inasmuch as the students not only have access to the library of the Medical School, but also to the Boston Medical Library and various other libraries of a more specialized nature.

## Admission

Application forms for admission to the School may be obtained from the Registrar, 80 E. Concord Street.

The attention of candidates for matriculation is called to the fact that each entering class is limited to sixty students. *Except in unusual circumstances, applications for admission will not be considered after*

*September 1.* The entrance requirements are in general those of the Association of American Medical Colleges and are therefore subject to change from time to time.

The present requirement contemplates the satisfactory completion of a minimum of sixty semester hours of collegiate instruction which shall include the subjects hereinafter specified; said instruction to have been given in approved institutions.

**Required subjects:**

**I. Chemistry**

(a) **General Chemistry.** Eight semester hours required, including four semester hours of laboratory work. Work in Qualitative Analysis may be included as part of General Chemistry.

(b) **Organic Chemistry.** A completed course of four semester hours required. This shall consist of didactic exercises, which should cover a discussion of the aliphatic, carbocyclic, and heterocyclic series.

**II. Physics.** Eight semester hours required, of which two semester hours shall consist of laboratory work.

**III. Biology.** Eight semester hours required, of which at least four semester hours shall consist of laboratory work. A combination of Biology and Zoölogy, or of Zoölogy and Botany, may be offered in satisfaction of this requirement. Botany alone will not suffice. Courses in Physiology and Hygiene, Sanitation, Entomology, Bacteriology, Histology and other similar subjects covered in the medical curriculum will not be accepted as part of the pre-medical college requirement in Biology.

In the case of students presenting ninety or more semester hours of collegiate work it is possible to substitute acceptable courses in the Psychologic or Sociologic sciences.

**IV. English Composition and Literature.** The usual introductory college course of six semester hours or its equivalent is required.

In addition to the above requirements of the Association of American Medical Colleges there is required evidence of the satisfactory completion of a course of at least six semester hours in French, German or Spanish.

The College of Liberal Arts of Boston University offers instruction in fulfillment of the above requirement. Circulars of information may be obtained by application to the Registrar of the College of Liberal Arts, Boston University, 688 Boylston Street, Boston 17.

*The Committee on Admission reserves the right to refuse admission to any applicant and the Advisory Committee reserves the right to terminate any student's connection with the School.*

**Advanced Standing** in the School of Medicine is allowed, when vacancies occur, to those who have completed the necessary entrance requirements and who have taken equivalent courses in acceptable medical schools. *Applicants for such advanced standing must demonstrate to the heads of departments in those courses for which they seek credit that their qualifications are satisfactory in every respect.*

### Graduation and Degrees

Boston University grants the degrees of Bachelor of Medicine, Bachelor of Surgery and Doctor of Medicine, on the following conditions:

Candidates for the degree of Bachelor of Medicine, or the degree of Bachelor of Surgery must have pursued medical studies three full years in this institution and must have obtained a rating well above the average in the studies of the first, second and third years. For the degree of Bachelor of Medicine a mark of distinction must have been obtained in each of the departments of physiology, pharmacology, and clinical medicine; while candidates for the degree of Bachelor of Surgery must have obtained a corresponding rating in each of the departments of anatomy and surgery.

Candidates for the degree of Doctor of Medicine must be at least twenty-one years old, of good moral character, and must have complied with all the requirements of the School. Candidates who have not pursued the prescribed course in this School must satisfy the requirements specified under Advanced Standing. This degree is granted only by unanimous vote of the Faculty.

The degree of Doctor of Medicine, *Cum Laude*, will be granted to the candidates who, having fulfilled all requirements of the School, are recommended for this honor by the Promotion Committees.

All candidates for graduation must present evidence to the Registrar on or before May 1 of the year of graduation to the effect that all obligations, financial and otherwise, to the University have been fully met.

### Clinical Facilities

Clinical instruction is carried out by means of ward walks and clinical clerkships in the wards and out-patient departments of the following institutions:

## THE BOSTON CITY HOSPITAL

The Boston City Hospital is directly opposite the Medical School. Its bed capacity is upwards of 1,251 and the daily average number of patients treated is approximately 1,100. In addition to a large Contagious Department, it maintains two downtown Relief Stations and a Convalescent Home.

The Out-Patient Department is housed in a recently completed modern building which was planned for the teaching of students, as well as the treatment of patients.

## THE MASSACHUSETTS HOMEOPATHIC HOSPITAL

The Massachusetts Homeopathic Hospital is a large general hospital located upon the same grounds as the Medical School. Its wards, amphitheatre, and internships are open to students and graduates of this School. Last year 11,074 cases were treated in this institution and 4,139 operations were performed.

THE OUT-PATIENT DEPARTMENT OF THE HOSPITAL is situated in the immediate vicinity of the School and offers most abundant facilities for clinical work. Last year 44,143 visits were made in its various departments. One of the State Clinics for Venereal Diseases is conducted in this Department, furnishing a large amount of clinical material.

THE CONTAGIOUS DEPARTMENT, known as the JOHN C. HAYNES MEMORIAL HOSPITAL FOR CONTAGIOUS DISEASES, is one of the worthy philanthropic foundations of which Boston has a generous share. Its capacity is 150 beds, and during a greater part of the year its wards are filled with cases of scarlet fever, diphtheria and other contagious diseases. Last year 1,385 patients were treated in this Department. The students of this School are given every opportunity to familiarize themselves with all phases of contagious diseases under competent instruction.

THE MATERNITY DEPARTMENT, known as THE ROBINSON MEMORIAL, was founded in 1916 and is one of the two largest maternity hospitals in New England. During the year 1924, 1,885 mothers received treatment. Opportunities are afforded the students for experience and observation in the ward walks and clinical clerkships in this Department. Most of these mothers are in attendance at the prenatal clinic for several months prior to delivery, thus affording the student ample experience in the care of pregnant women.

Each Senior student is assigned for exclusive work in this Department for not less than one week, during which time he occupies quarters in the adjoining building. He is thus able to witness all deliveries and operations occurring in the Department and to attend, under supervision, maternity cases on the District.

THE ROBERT DAWSON EVANS DEPARTMENT OF CLINICAL RESEARCH AND PREVENTIVE MEDICINE was the gift of Mrs. Evans as a memorial to her husband. Its purpose is to afford opportunity for special clinical research and the thorough investigation of problems in preventive medicine, and to give public instruction in matters of physical and mental hygiene. At the present time research work is being conducted in chemistry, vital function investigation, pharmacology, bacteriology, immunology, pathology, endocrine therapy, and allied subjects. Interested students are given opportunity to carry on intensive studies in this Department. By provision of its deed of gift the teaching possibilities of the institution are available to the Medical School for the instruction of its students.

#### THE WESTBOROUGH STATE HOSPITAL

This hospital is for the treatment of the insane, and accommodates 1,432 patients. It includes a collection of sixty buildings. It was the first of its kind in the state to establish a psychopathic department for the segregation of the recent and curable cases from the chronic group. It was also the first to erect colony buildings for the care of the quiet chronic cases. It also has established special tuberculosis wards, and possesses a commodiously housed, well-equipped pathological department for routine clinico-pathological work and for original investigations.

#### BOSTON PSYCHOPATHIC HOSPITAL

This is a state institution for acute, curable, incipient, and doubtful cases of mental diseases. Committed cases are cared for in other state institutions. It has a bed capacity of 110, and has a daily census of about 90 patients. Last year 2,000 patients were admitted, and 1,500 cases were treated in the out-patient department, where clinics are held daily. Intensive work is being done in mental and nervous diseases due to syphilis. Laboratories are provided by the State Commission on Mental Diseases.

### BABY AND CHILD WELFARE CLINICS

The Health Department of the City of Boston, through its Department of Child Welfare, operates thirty Municipal Clinics scattered throughout the city for babies and for children under five years of age. Through contracts with Boston University School of Medicine, Harvard Medical School and Tufts Medical School, the operation of these conferences is under the direct supervision of the Pediatric Departments of the above mentioned institutions.

Eleven of these clinics are conducted under the supervision of Boston University.

Opportunity is given to the students to make physical examinations of normal babies and children and to prescribe indicated dietaries, as well as to outline the correction of physical defects.

### THE MEDICAL MISSION DISPENSARY

The Medical Mission Dispensary is located on Hull Street in one of the congested districts of Boston's north end. It offers opportunity for clinical instruction in dispensary and district work. The obstetrical service is maintained in close association with the Robinson Memorial. Each male student is required to spend a period of time in residence at this institution.

### THE BOSTON DISPENSARY

The Boston Dispensary on Bennet Street, which was established in 1796, is the oldest public dispensary in Boston. It treats approximately 32,000 different individuals during the year, in the hospital, clinics and in district work. This Dispensary is the third oldest charitable medical dispensary in the United States.

### Libraries

The Library of the School is located in the Administration Building and contains approximately 7,500 volumes. Additions of recent textbooks and monographs are made annually. The periodicals number over 100, and include the leading journals and abstracts of clinical medicine and the medical sciences. The Index of the Surgeon-General's Library, Index Medicus, and the Quarterly Cumulative Index to Current Medical Literature are likewise on hand for reference.

Library Hours: 9 A.M. to 9.30 P.M. during the school year; 9 A.M. to 5.00 P.M. during the summer months.

*The Boston Medical Library.* No. 8 The Fenway, was founded in 1875 and contains the largest collection of medical books and periodicals to be found in New England. The use of this library by medical students is permitted under certain restrictions. Students in good standing are admitted to associate membership upon the payment of the fee of \$5.00 per year.

*The Boston Public Library* contains a number of files of the leading medical journals, which are available to library cardholders. Students can be furnished with certificates which will enable them to procure these cards and to use the books and periodicals in the medical collection.

### Graduate Degrees

Graduates holding the M.D. degree from an accredited medical school may become candidates for the Master's degree in Medicine or Surgery on the satisfactory completion of a year of graduate work. The program of study must have the approval of the Committee on Graduate Instruction before the beginning of the School year.

Graduates who, in addition to the M.D. degree, hold a Bachelor's degree from an accredited College of Liberal Arts may become candidates for the degree of Master of Arts on the satisfactory completion of one year of graduate work specializing in the medical sciences. Programs of study must be submitted before the opening of the School year, to the Dean of the Graduate School, 688 Boylston Street, Boston 17, Mass.

Graduates of the Boston University School of Medicine who hold the degree of A.B. or S.B. and meet the regular requirements for admission to the Graduate School may be admitted, provided the character of work done in the School of Medicine has been of sufficiently high grade to admit of recommendation by the Committee on Graduate Instruction. If admitted, their status relative to the work required for the degree of Doctor of Philosophy shall be the same as that of a candidate who has received the degree of A.M. from Boston University, and the minimum amount of work shall be two full years in the Graduate School. The Doctorate in Philosophy may be taken in the following medical sciences: Anatomy, Bacteriology, Chemistry, Pathology, Physiology and Pharmacology.

*Special Cases:* Graduates of the Boston University School of Medicine who do not hold the degree of A.B. or S.B., may be admitted to the Graduate School as candidates for the degree of Doctor of Philosophy, if recommended by the Committee on Graduate Instruction. The mini-

imum time in which such candidates may obtain the degree shall be three full years in the Graduate School, and they will be subject to special supervision by the Executive Committee of the Graduate School. For further information consult the Dean of the Graduate School, 688 Boylston Street, Boston.

#### Courses for Graduates

Graduates in Medicine, who are accepted by the Committee on Admission, will be admitted to the School, and allowed to attend such courses as may be arranged for by the Registrar. Those who wish to review any of their past studies, or to investigate new subjects, may be allowed opportunities as far as space and time permit in the laboratories of the School, as well as in the daily clinics of the Hospitals and Dispensary under such conditions as the Committee may determine.

#### Special Courses

Persons approved by the Committee on Admission may be admitted to such special courses as they may be qualified to take. Such courses, however, shall not count as any part of the regular four-years' course.

#### General Regulations

Students are expected to comply with the regulations of the School as well as the special regulations of the departments of School or Hospital in which work is undertaken.

The academic progression of students in the Medical School is in charge of Promotion Committees, one of which is organized for each year of the curriculum. These Committees consist of Faculty members chosen from the various departments. Each student is rated in each course taken, and such rating is submitted to the proper Promotion Committee. Following the action of the Committee, all grades are filed in the School office. Ratings are as follows:

(A) Exceptional student. (B) Student above average. (C) Average student. (D) Only passable. (E) Failure.

These Committees constitute the final authority on such ratings and no final grades will be issued by any department before the action of the Committees for the particular year. Students will not be promoted with conditions. Re-examination will be permitted for the removal of deficiencies only in those cases approved by the Promotion Committee. Such approved examinations will be conducted during the week preceding the opening of the School in the fall. A student will be required

to have an average of "C" for graduation. For purposes of computation, letter grades are converted into numerical equivalents and the factor system is used to determine the relative importance of each course, and to arrive at an average grade for the year.

The continuance in good standing of any student is dependent upon the satisfactory fulfillment of rules and regulations of the School and allied institutions, as well as the observance of such moral standards as are deemed fitting for one preparing for the practice of medicine.

The right is reserved to dismiss a student at any time, or to refuse recommending him for promotion to the degree.

A student who withdraws from the School for good and sufficient reasons may be subsequently reinstated, provided not too long a time has elapsed; and provided further that changes in the curriculum do not render such readmission impracticable. The Committee on Admission will be the final authority in these cases.

#### Tuition Fees

Registration Fee.....	\$5.00
University Fee (\$10.00 each semester) .....	20.00
Yearly Tuition.....	300.00
Publication Fee.....	1.00
Graduation as Bachelor of Medicine or Surgery.....	10.00
Graduation as Doctor of Medicine.....	10.00

(All fees for material are included in the above amount. Students carrying less than the full medical program will be charged proportionate rates.)

The Registration, Publication and the first semester's University Fees and \$175.00 of the Yearly Tuition Fee are payable on or before Registration Day in the first semester; and the second semester's University Fee and \$125.00 payable on or before the first day of the second semester.

DEPOSITS. The deposits required are:

1. A deposit of \$25.00 is required of all new students, to insure a place for them in the class to which they are to be admitted. This will be applied to the credit of the first semester's tuition on the completion of matriculation. *In the event that an applicant does not complete his matriculation, this amount is forfeited.*

2. A deposit on keys.

Such unusual breakage as occurs in the laboratory courses will be billed against the student involved; and no grades will be recorded until these and other financial obligations to the University are discharged.

All fees for special courses or lectures must be paid at the time of registration.

A late registration fee of \$3.00 is charged for students who register after the specified registration dates.

No student shall be admitted to classes until he has met the requirements of the Bursar.

Modification of these rules can be made only by consent of the Dean.

Graduation fees are payable on or before May 1 of the Senior year.

Fees are not returnable in the event of a student severing his connection with the School.

All students entering the School will be required to provide themselves with a microscope of approved design and including an oil immersion objective. All fourth year students are required to provide themselves with standard equipment for ward work, including sphygmomanometer, haemocytometer and color scale. The above instruments may be purchased by students through the University Bookstore at reduced rates.

### Scholarships

*Scholarship Funds* named after the donor are available and are annually awarded to students of advanced standing whose industry, proved ability, and need are such as to justify the Faculty in making the awards. First-year students, except under special circumstances, are not expected to apply for aid.

The Scholarship Funds are known as:

The Alumni Association, B.U.S.M.;  
The Bailey-Crane;  
The Lucius Clapp;  
The Anna Custer;  
The Julia F. Fillebrown;  
The Garfield;  
The Clara E. Gary;  
The Abigail W. Howe;  
The Phi Delta Epsilon;  
The Stephen Stickney;  
The Clara A. Thatcher;  
The Wade;  
The Maria L. D. Wilson.

### **Loan Funds**

There are small sums of money annually available for loans to deserving students. These Funds are established under the following names:

George Russell;  
Fenno Tudor;  
Edward E. Allen.

### **Internships and Appointments**

Although some State Examining and Licensing Boards require a "Hospital Year" in addition to the regular four-year course, this institution does not obligate itself in any way to obtain such appointment for its graduates. It has been possible in the past for all graduates who desire hospital appointments to obtain them. The School attempts to keep in touch with the situation and to assist the graduates in every way.

## THE CURRICULUM

## Required Courses

FIRST YEAR	Hours	SECOND YEAR	Hours
Histology and Embryology	240	Pharmacology	210
Gross Anatomy	240	Pathology:	
Neuro-Anatomy	96	General and Special	192
Physiology	224	Bacteriology	144
Biochemistry	232	Immunology	54
Elementary Surgery	32	Clinical Pathology	80
Weekly Assembly	32	Public Health	8
Clinical Correlation Exercises	64	Neuropathology	36
		Physical Diagnosis: Medical, Sur- gical and Special	50
		General Medicine	25
		Theory and Principles of Home- opathy	8
		Obstetrics	40
		Surgical Pathology	16
		Pediatrics	10
		Weekly Assembly	32
		Clinical Correlation Exercises	32
		Clinical Exercises	32
THIRD YEAR	Hours	FOURTH YEAR	Hours
General Medicine	226	Clinical Exercises:	
General and Special Surgery, includ- ing Genito-Urinary Surgery, Sto- matology and Roentgenology	178	Medicine	220
Neurology and Psychiatry	91	Surgery, including Roentgen- ology	360
Pediatrics	88	Neurology and Psychiatry	60
Orthopedic Surgery	80	Pediatrics	90
Dermatology and Syphilology	82	Orthopedic Surgery	60
Obstetrics	54	Obstetrics	40
Gynaecology	46	Gynaecology	40
Ophthalmology, Laryngology and Rhinology and Otology	39	Ophthalmology and Oto-laryngol- ogy	120
Legal Medicine	18	Clinico - Pathological Conferences and Laboratory Instruction	52
Weekly Assembly	32	Applied Anatomy	38
		Applied Physiology	32
		Weekly Assembly	32

In addition to the above required courses certain Departments offer electives.

## DEPARTMENTS OF INSTRUCTION

The distribution of the work of instruction among the various departments follows. Exercises are held in the Medical School when not otherwise specified. These abbreviations are used:

B.C.H., Boston City Hospital; M.H.H., Massachusetts Homeopathic Hospital; O.P.D., Out-Patient Department of Massachusetts Homeopathic Hospital; H.M.H., Haynes Memorial Hospital; R.M.H., Robinson Memorial Hospital; W.S.H., Westborough State Hospital; B.P.H., Boston Psychopathic Hospital; M.C., Municipal Clinics; E.M., Evans Memorial; M.M.D., Medical Mission Dispensary; B.D., Boston Dispensary.

## ANATOMY

- ALEXANDER S. BEGG, M.D., *Waterhouse Professor of Anatomy.*  
 J. LEROY CONEL, Ph.D., *Associate Professor of Anatomy.*  
 EDWARD S. CALDERWOOD, M.D., *Assistant Professor of Anatomy.*  
 ALICE S. WOODMAN, M.D., *Assistant Professor of Histology and Embryology.*  
 MILO C. GREEN, M.D., *Assistant Professor of Applied Anatomy.*  
 WILLIAM D. ROWLAND, M.D., *Instructor in Applied Anatomy.*  
 MARION H. COWPERTHWAITTE, A.B., *Instructor in Histology and Embryology.*  
 LEIGHTON F. JOHNSON, M.D., *Assistant in Applied Anatomy.*  
 BARNET M. WEIN, M.D., *Assistant in Applied Anatomy.*  
 CLEMENT F. LYNCH, M.D., *Assistant in Anatomy.*

## Required Courses

## FIRST YEAR

**Histology and Embryology**, which includes the study of the cell and general tissues, a detailed consideration of selected embryos and the structure and development of organs. Loan slides are provided for the more unusual specimens and include serial sections of embryos. Drawings are required.

*First semester; forenoons, Monday to Friday, inclusive. Eighty lectures and one hundred and sixty laboratory hours. 240 hours. DR. WOODMAN and ASSISTANTS.*

**Gross Anatomy** is so arranged that each student is responsible for the dissection of a lateral half of the human body and all members of the class dissect the same part at the same time. The study of the skeleton is carried on with the dissection and the students are provided with loan collections of the various bones. Emphasis is placed upon points of practical importance.

*First semester; afternoons, Monday to Friday, inclusive. Lectures or demonstrations at the pleasure of the head of the Department. 240 hours. DRs. CONEL, CALDERWOOD and ASSISTANTS.*

**Anatomy of the Central Nervous System**, is given in co-operation with the Department of Physiology and involves the study of the brain, spinal cord, and organs of special sense. Study is by means of dissection and Pal-Weigert preparations are provided as a basis for the study of tracts. Models, charts, special preparations, etc., are provided.

*Second semester; forenoons, Mondays and Fridays. Thirty-two lectures and sixty-four laboratory hours. 96 hours. DRs. BEGG, CONEL, WOODMAN and ASSISTANTS.*

## FOURTH YEAR

**Applied Anatomy** consists of lectures and demonstrations on the practical relation of regional anatomy to surgery and medicine as well as to the fields of ophthalmology and oto-laryngology.

Twenty-three demonstrations. 38 hours. DRs. ROWLAND, GREEN, JOHNSON and WEIN.

## Elective Courses

## THIRD YEAR

**Topographical Anatomy** is studied by means of frozen sections of adult human bodies, in order to emphasize the undisturbed relationships of the various important regions.

*Second semester.* Minimum 32 hours, divided between conferences and laboratory work. Limited to twelve students. DR. CONEL.

## FOURTH YEAR

**Anatomical Seminar.** At this conference there will be a discussion of topics suggested by experience in the wards and out-patient departments of the hospitals.

Thirty exercises throughout the year; afternoons. Attendance not limited. DR. BEGG.

**Histology and Embryology; Anatomy of the Central Nervous System.** Advanced work by special arrangement with instructor. DR. WOODMAN.

## PHYSIOLOGY

FREDERICK H. PRATT, M.D., *Professor of Physiology.*

FREDERICK P. BATCHELDER, M.D., *Associate Professor of Applied Physiology.*

BRENTON R. LUTZ, Ph.D., *Assistant Professor of Physiology.*

LELAND C. WYMAN, Ph.D., *Assistant Professor of Physiology.*

## Required Courses

## FIRST YEAR

**The Lecture Course**, supplemented by reference to monographic and periodical literature, is based upon the following topics:

1. Elements of general physiology.
2. Genetics.
3. Evolution of the neuromuscular system.
4. Muscle and nerve.
5. Blood and lymph.
6. Autonomic system.
7. Circulation.
8. Respiration.
9. Internal secretion.
10. Reproduction.
11. Alimentary system.
12. Heat regulation.
13. Excretion.
14. Central nervous system.
15. Sense organs.

The instruction is arranged in close correlation with the course on the Anatomy of the Central Nervous System. Under the auspices of one or the other of these two courses each student presents before the class the results of a study of some special topic.

Lectures, recitations, and conference reports, five hours a week during the *second semester*. THE STAFF. 80 hours.

**The Laboratory Course** aims to acquaint the student at first hand with the fundamental facts of the science, and to train him in the experimental method and in the interpretation of results. One seventh of the time is devoted to mammalian work in groups of five. The remaining experiments are done with material and apparatus, assigned to each pair of students, the time being divided between experiments with cold-blooded material and observations on the human body.

Laboratory exercises, nine hours a week during the *second semester*. DRs. PRATT, LUTZ and WYMAN. 144 hours.

#### FOURTH YEAR

**The course in Applied Physiology** is designed to emphasize those physiological principles which have the most immediate application in the understanding and control of disturbed function.

Lectures, recitations, and practical studies in applied physiology. Twice a week during the *second semester*. 32 hours. DR. BATCHELDER.

### Elective Courses

#### THIRD YEAR

**Seminars** of one hour each per week during the *first semester* in the following fields of Physiology:

1. General endocrinology. DR. WYMAN.
2. Respiration. DR. LUTZ
3. Peripheral nerve. DR. PRATT.

#### THIRD OR FOURTH YEARS

**Demonstrations in Mammalian Physiology.** Two months, *second semester*. One exercise per week. Limited to six students. DRs. PRATT, LUTZ and WYMAN.

### PHYSIOLOGICAL CHEMISTRY

ALLAN WINTER ROWE, Ph.D., *Professor of Chemistry.*

JOSEPH CHANDLER, Ph.D., *Associate Professor of Chemistry.*

BURNHAM S. WALKER, A.M., *Teaching Fellow in Chemistry.*

..... *Teaching Fellow in Chemistry.*

### Required Courses

#### FIRST YEAR

The lectures present a co-ordinated survey of the facts and theories of Biological Chemistry and their application to Chemical Physiology and Pathology. Normal and abnormal metabolic processes are compared and contrasted and the diagnostic significance of variation is emphasized. The subjects considered in this department are the chemistry of the cell; carbohydrates; lipins; proteins; mineral

metabolism; chemistry of digestion; accessory food factors; normal and abnormal metabolism from the physical and chemical standpoints; respiratory metabolism; chemistry of the urine, blood, secretions and excretions, and the various methods of vital function testing. The physico-chemical aspects of certain physiological problems are discussed in connection with a general review of the fundamental principles of physical chemistry.

The laboratory work supplements and complements the lectures, special emphasis being laid both on the general, and also the more exact methods of chemical analysis of the urine, the blood, and the technique of so-called "vital function testing. Simple metabolism experiments are an incidental feature of the work.

Instruction is given during the *second semester* of sixteen weeks.

Five lectures per week. 80 hours. DR. ROWE.

Nine laboratory hours per week. 144 hours. DRs. ROWE, CHANDLER and TEACHING FELLOWS.

Eight quizzes. 8 hours. DR. ROWE.

### Elective Courses

#### THIRD YEAR

**Blood Chemistry.** Two three hour periods per week, sixteen exercises. *First semester.* Attendance limited to six students. DR. CHANDLER.

**Dietetic Theory.** Conferences one hour per week. Afternoons throughout the year. Attendance not limited. DR. ROWE.

#### FOURTH YEAR

**Respiratory Metabolism.** Sixteen exercises, two hours each. *forenoons.* Attendance limited to six students. DR. ROWE.

### PATHOLOGY

WILLIAM H. WATTERS, M.D., *Professor of Pathology.*

DAVID L. BELDING, M.D., *Associate Professor of Bacteriology.*

SANFORD B. HOOKER, M.D., *Associate Professor of Immunology.*

HELMUTH ULRICH, M.D., *Associate Professor of Clinical Pathology.*

HOWARD A. STREETER, M.D., *Lecturer on Public Health.*

JOSEPH GOLDMAN, M.D., *Instructor in Bacteriology and Immunology.*

WARREN S. SHIELDS, M.D., *Demonstrator of Pathology.*

HOWARD K. THOMPSON, M.D., *Assistant in Pathology.*

CHARLES SZIKLAS, M.D., *Assistant in Pathology.*

MARION L. TAYLOR, *Technical Assistant in Pathology.*

The work in this department includes the subjects of General Pathology, Special Pathology, Bacteriology, Immunology, Public Health, Clinical Pathology, and Chemical Pathology.

### Required Courses

#### SECOND YEAR

**General and Special Pathology** deals with the phenomena of disease in general and its special forms as it affects the various organs. In the laboratory each student receives a large collection of mounted specimens for microscopic examinations, to

be studied in association with the gross tissues, and the clinical histories of the cases that accompany them. Autopsies are available and are used as an adjunct to the course. Students are required to assist in their performance. These cases are studied from both the clinical and the pathological aspects, full histories, physical findings, and clinical diagnoses being given.

Fifty-eight lectures and one hundred and thirty-four hours devoted to laboratory exercises and autopsies. Six hours a week for thirty-two weeks. 192 hours. DR. WATTERS and ASSISTANTS.

**Bacteriology and Parasitology.** The aim is to teach the student the correct technique for diagnostic laboratory work and to impart a practical knowledge of the etiology of the various bacterial and parasitic diseases. Instruction is given in bacteriological technique, including methods of sterilization, preparation of culture media and methods of cultivating bacteria. Special attention is given to the laboratory diagnosis of the more common bacterial diseases, and the student is required to become familiar with the important pathogenic bacteria. Various public health problems are also considered, in connection with laboratory work.

Thirty lectures and one hundred and fourteen laboratory hours. *First semester.* 144 hours. DR. BELDING and ASSISTANTS.

**Immunology.** The practical application of immunologic principles to the diagnosis, prevention, and treatment of disease is stressed. The important factors concerning toxin-antitoxin reactions, agglutinins, precipitins, cytolysins, complement-fixing antibodies, tropins, and the phenomena of hypersensitiveness, vaccin and serum treatment are thoroughly studied.

Fifteen lectures and thirty-nine laboratory hours. *Second semester.* 54 hours. DR. HOOKER and ASSISTANTS.

**Clinical Pathology.** The greater portion of the time given in the course is spent in the study of the urinary sediments and clinical haematology. The abundant material available from the adjoining hospital affords a splendid opportunity for comprehensive work in these fields. The clinical application of the various laboratory procedures receives special emphasis throughout the course. There are also lectures and demonstrations upon the chemical examination of the blood, and especially its practical application in the diagnosis and therapeutic control of nephritis, diabetes, and other diseases.

Sixteen lectures and sixty-four laboratory hours. *Second semester.* 80 hours. DR. ULRICH and ASSISTANTS.

**Neuropathology.** (Vide Neurology.)

**Public Health.** While approximately one hundred and twenty hours are devoted to the various phases of the subject in the preceding courses, special lectures will be given on matters pertaining to public hygiene.

Eight lectures. *Second semester.* 8 hours. DR. STREETER.

### THIRD YEAR

**Legal Medicine.** A course on the relations between the physician and the law: legal rights, duties, and liabilities of physicians in their relation to the state, the court, and their patients; malpractice—civil and criminal; medical witnesses and experts; legal aspects of insanity; physicians in the public service—in hospitals, the army and navy, and as medical examiners and coroners' assistants.

One lecture a week for eighteen weeks. 18 hours. DR. WATTERS and ASSOCIATES.

## FOURTH YEAR

**Clinico-Pathological Conferences** are held during the Senior Year at which the clinical findings are extensively considered, clinical diagnosis given, and pathological findings carefully described and discussed. This work is done under the direction of Dr. Watters, assisted by other members of the department and with the active cooperation of the rest of the Faculty.

At intervals men eminent in some particular allied department elsewhere are invited to address the class and such other students as may be able to attend.

One each week for thirty-two weeks. 32 hours DR. WATTERS.

**General Laboratory Instruction.** 20 hours. DR. WATTERS.

## Elective Courses

## THIRD OR FOURTH YEARS

**Immunology.** Advanced work in such fields as may be determined by conferences. Forenoons during the month of February. Limited to six students. DR. HOOKER.

**Bacteriology.** Advanced work in such fields as may be determined by conferences.

One month by arrangement with instructor. DR. BELDING.

## FOURTH YEAR

**Pathology** of surgical material. Afternoons throughout the year. Three exercises per week, two hours each. Limited to eight students. DR. WATTERS.

**Postmortem Pathology and Legal Medicine.** At such times as material permits. Limited to six students. DR. WATTERS.

**Seminar.** *First semester;* one hour per week on Bacteriology and Immunology in their clinical relations. DRs. BELDING and HOOKER.

## PHARMACOLOGY

WALTER L. MENDENHALL, M.D., *Professor of Pharmacology.*

HARRY L. HALL, M.D., *Assistant Professor of Pharmacology.*

JACOB M. MASTERS, M.D., *Instructor in Pharmacology.*

## Required Courses

## SECOND YEAR

The course in Pharmacology is designed with two fundamental ideas: (1) that the student is being trained for the general practice of medicine, and (2) that he should use drugs with intelligence and precision when it becomes necessary to prescribe them to supplement other forms of treatment.

**Systematic Pharmacology.** The course consists of lectures in which the detailed actions of drugs are considered. They are grouped according to the physiological system most prominently affected by them, and the discussion of each drug is preceded by a brief explanation of its source, preparations, and doses, and its history when that is of interest in tracing the development of any knowledge concerning the

drug. The toxicology of the drug is considered and a summary of its therapeutic indications presented.

Four hours a week for fifteen weeks. *First semester.* 60 hours. THE STAFF.

**Pharmacy, Pharmaceutical Chemistry, Materia Medica, and Toxicology.** In the Laboratory Course the student makes a number of pharmacopoeial preparations; problems in flavoring and the proper use of vehicles are presented. The chemical composition of drugs is studied in connection with their chemical reactions; also incompatibilities and prescription writing are thoroughly considered.

Seven hours a week for nine weeks. *First semester.* 63 hours. THE STAFF.

**Experimental Pharmacology.** A Laboratory Course in which both the physiological and toxicological actions of drugs are studied by means of experiments upon animals. Students work in groups of two to four depending upon the nature of the experiment. The records of the results obtained with animals are carefully analyzed, and training in recognition of these effects is emphasized in order to form a foundation for accurate observation of drug effects in man.

There is no separate course in Toxicology, the subject being thoroughly covered in the lectures and laboratory exercises of the other courses.

Seven hours a week for six weeks. *First semester.* 42 hours. THE STAFF.

**Conferences and Reviews.** The subject matter of lectures and laboratory findings is discussed informally, and oral and written reviews are held frequently.

Opportunity for special work is afforded for properly qualified students who wish to engage in a more intensive study of Pharmacological problems. Time for this work must be arranged outside of the regular schedule.

Three hours a week for fifteen weeks. *First semester.* 45 hours. THE STAFF.

### Elective Courses

#### THIRD YEAR

**Applied Prescription Writing.** Twelve exercises, one hour per week. *First semester.* Attendance not limited. DR. MENDENHALL.

#### THIRD OR FOURTH YEARS

**Experimental Pharmacology.** Twelve exercises, afternoons of *first semester.* Limited to six students. DR. MENDENHALL and ASSISTANTS.

### MEDICINE

NELSON M. WOOD, M.D., *Professor of Clinical Medicine.*

JOHN P. SUTHERLAND, M.D., *Professor of Theory and Practice.*

PERCY G. BROWNE, M.D., *Professor of Diseases of the Chest.*

ALBERT S. BRIGGS, M.D., *Assistant Professor of Clinical Medicine.*

EDWARD S. CALDERWOOD, M.D., *Assistant Professor of Clinical Medicine.*

GEORGE N. LAPHAM, M.D., *Assistant Professor of Diseases of the Chest.*

WILSON F. PHILLIPS, M.D., *Assistant Professor of Theory and Practice.*

DWIGHT O'HARA, M.D., *Lecturer on Therapeutics.*

CECIL W. CLARK, M.D., *Instructor in Medicine.*

JOHN A. FOLEY, M.D., *Instructor in Clinical Medicine.*

CHARLES H. LAWRENCE, M.D., *Instructor in Endocrinology.*

- CHARLES W. McCLURE, M.D., *Instructor in Gastro-Enterology.*  
 WILLIAM D. REID, M.D., *Instructor in Cardiology.*  
 ALICE H. BASSETT, M.D., *Clinical Instructor in Medicine and Lecturer on Drug Pathogenesis.*  
 FREDERICK E. CRUFF, M.D., *Clinical Instructor in Contagious Diseases.*  
 JOHN A. ROCKWELL, M.D., *Clinical Instructor in Medicine.*  
 MAX BAKER, M.D., *Assistant in Medicine.*  
 ALMA A. BINASCO, M.D., *Assistant in Medicine.*  
 THOMAS E. CONNOR, M.D., *Assistant in Medicine.*  
 LEON W. CROCKETT, M.D., *Assistant in Medicine.*  
 CLARENCE H. DOBSON, M.D., *Assistant in Medicine.*  
 JOSEPH GOLDMAN, M.D., *Assistant in Medicine.*  
 JACOB M. MASTERS, M.D., *Assistant in Medicine.*  
 BENJAMIN C. WOODBURY, M.D., *Assistant in Medicine.*

### Required Courses

**Internal Medicine.** The work in the Department of Medicine is made up of lectures, clinics, clinical clerkships, ward walks, and demonstrations in the various departments of the hospitals to which the students have access, and is conducted in the second, third and fourth years. The purpose of the course is to cover the entire field of general medicine with the exception of the subjects which are considered in other departments.

The work is begun by a course in Physical Diagnosis, conducted in such a way as to acquaint the student with methods of history taking, physical examination and diagnostic methods as used in the various clinical departments.

In the clinical clerkships students are required to make complete physical and laboratory examinations in each case to which they are assigned, to record their findings on specially prepared blanks, and to indicate a provisional diagnosis and outline of treatment. In the ward walks each case is discussed by the instructor and the recorded statements of the student confirmed or corrected. The student continues to observe his case during its stay in the hospital, making appropriate entries on the record blanks.

The work of each student is under supervision of instructors, and he is rated in accordance with the character of his work.

A course of lectures is given on Professional Ethics and the History of Medicine, the latter being amplified by means of special exercises referred to elsewhere.

Preventive medicine is emphasized in all possible connections throughout the four years' training. There is, however, special provision made for instruction in the physical examination of the apparently well through the health clinic established at the Young Men's Christian Association and through the examinations made of the members of the Reserve Officers' Training Corps of the University.

### SECOND YEAR

Twenty lectures and five practical exercises in Physical Diagnosis. *First semester.* 25 hours. DR. . . . .

Twenty lectures and five quizzes. General Medicine. *Second semester.* 25 hours. DR. PHILLIPS.

Theory and Principles of Homeopathy. *Second semester.* 8 hours. DR. CLARK.

## THIRD YEAR

Lectures covering the etiology, symptomatology, diagnosis, and treatment of general diseases. 96 hours. DRs. N. M. WOOD, McCLURE, LAWRENCE, and MASTERS.

Special lectures on diseases of the heart and lungs. 40 hours. DRs. BROWNE, LAPHAM and REID.

Lectures on Professional Ethics and History of Medicine. *First semester.* 18 hours. DR. SUTHERLAND.

Clinical demonstrations and medical clinics. O.P.D. 72 hours. THE STAFF.

## FOURTH YEAR

Clinical clerkships, ward walks and out-patient service. Class in three sections; ten weeks for each section. B.C.H., M.H.H. 220 hours. THE STAFF.

Preventive Medicine. Exercises in examination and study of the apparently normal individuals in the Reserve Officers' Training Corps, first year medical class and Y.M.C.A. Dr. GARRICK and ASSISTANTS.

## Elective Courses

## THIRD YEAR

Lectures on Therapeutics. *First semester.* 8 hours. DR. O'HARA.

Lectures on the Practice of Homeopathy and Drug Pathogenesis. *First and second semesters.* 48 hours. DRs. SUTHERLAND and BASSETT.

Seminar. Diabetes and its complications, including dietetic and insulin therapy Lectures, bedside and laboratory demonstrations. *First or second semesters.* Limited to eight students. All exercises and time to be arranged with instructor. DR. ULRICH.

Seminar on Endocrines. One per week throughout the year. Attendance not limited. DRs. ROWE and LAWRENCE.

## PEDIATRICS

ORVILLE R. CHADWELL, M.D., *Professor of Pediatrics.*

FREDERICK E. CRUFF, M.D., *Instructor in Pediatrics.*

RICHARD F. JAMES, M.D., *Instructor in Pediatrics.*

H. C. PETTERSON, M.D., *Instructor in Pediatrics.*

LOUIS SCHELLER, M.D., *Instructor in Pediatrics.*

ALBERT B. TOPPAN, M.D., *Instructor in Pediatrics.*

FRANCIS S. HARRIS, M.D., *Assistant in Pediatrics.*

FREDERICK S. HUNTINGTON, M.D., *Assistant in Pediatrics.*

PAUL J. JAKMAUH, M.D., *Assistant in Pediatrics.*

CYRIL M. LYDON, M.D., *Assistant in Pediatrics.*

## Required Courses

The instruction in this department comprises (1) lectures on the development and hygiene of the normal child, normal nutrition, diseases of nutrition, pathological conditions not covered in the other sections of general medicine, and contagious diseases; (2) clinical instruction in the hospital wards or out-patient department, clinical clerkships in the various departments of the hospital and in the Municipal Clinics, and ward walks in the hospital (including the contagious wards).

In the third year the didactic instruction is completed and clinics in the hospital and out-patient department are conducted, special emphasis being placed upon diseases of nutrition and infant feeding. The work in the fourth year is entirely clinical. The amount of clinical material available is very large. The children's ward in the Hospital contains forty beds, and a great variety of the diseases of childhood are presented; a hundred and fifty beds at the contagious department are occupied largely by children; the daily clinics at the O.P.D. are well attended; the average attendance at the Municipal Clinics is about sixty; and the venereal department furnishes ample opportunity for the study of hereditary and acquired venereal diseases in childhood.

#### SECOND YEAR

**Pediatrics.** Ten lectures on the hygiene and development of the normal child. *Second semester.* 10 hours. DR. PETTERSON.

#### THIRD YEAR

Thirty lectures on infant feeding, diseases of nutrition, and other diseases of childhood, and ten lectures on contagious diseases. 40 hours. DRs. CHADWELL and CRUFF. Out-Patient Clinics. 48 hours. THE STAFF.

#### FOURTH YEAR

Ward walks, clinical clerkships, and clinics in the hospital wards, out-patient department, clinical laboratories, and the Municipal Clinics. Ninety hours for each student. M.H.H., H.M.H., M.C., 90 hours. THE STAFF.

### NEUROLOGY AND PSYCHIATRY

N. EMMONS PAINE, M.D., *Professor of Psychiatry.*  
 SOLOMON C. FULLER, M.D., *Associate Professor of Neurology.*  
 MYRTELLE M. CANAVAN, M.D., *Assistant Professor of Neuropathology.*  
 NATHAN H. GARRICK, M.D., *Assistant Professor of Neurology.*  
 ARTHUR H. RING, M.D., *Assistant Professor of Neurology.*  
 MARJORIE FULSTOW, M.D., *Instructor in Neuropathology.*  
 KARL M. BOWMAN, M.D., *Clinical Instructor in Psychiatry.*  
 WALTER E. LANG, M.D., *Clinical Instructor in Psychiatry.*

#### Required Courses

##### SECOND YEAR

**Neuropathology.** This course consists in the laboratory study of autopsy material and microscopic preparations illustrating the usual organic lesions in the central nervous system, supplemented by preparation and discussion of papers by students and occasional lectures and demonstrations by members of the departments.

Twelve periods of three hours each. *Second semester.* 36 hours, including laboratory work, lectures and demonstrations. DRs. CANAVAN and FULSTOW.

##### SECOND and THIRD YEARS

**Neurology.** This course includes the consideration of the anatomical substrates of nervous diseases, neuropathology, peripheral nerve disorders, the neuroses and the major nervous diseases. Abundant clinical material is available in the Hospital, the O.P.D. and The Evans Memorial.

**Second Year.** Neurological examination and history taking, 4 hours. DR. GARRICK.

**Third Year.** Twenty-four didactic lectures and demonstrations, 32 hours. Thirty-two clinics at the O.P.D. 32 hours. Total 64 hours. DRs. FULLER, RING and GARRICK.

#### THIRD and FOURTH YEARS

**Psychiatry.** To this course has been assigned 27 hours; nine meetings of one hour each for teaching at the School by lectures and recitations from a chosen text-book; and nine-clinics of two hours each at the Boston Psychopathic Hospital, at the Westborough State Hospital and the Massachusetts School for Feeble Minded at Waverley. These exercises furnish opportunity for the demonstrations of all of the common mental abnormalities.

**Third Year.** Eight recitations and one lecture, 9 hours. DR. N. E. PAINE.

Nine clinics, each two hours, B.P.H., W.S.H. 18 hours. DRs. BOWMAN and LANG.

**Fourth Year.** Sixty clinic hours, including ward walks, E. M. 60 hours. Bi-weekly seminar for discussion of cases studied and associated neurological problems. DRs. FULLER and GARRICK.

#### DERMATOLOGY AND SYPHILOLOGY

WESLEY T. LEE, M.D., *Professor of Dermatology.*

JOHN A. MACMILLAN, M.D., *Assistant Professor of Dermatology*

RUDOLPH JACOBY, M.D., *Clinical Instructor in Dermatology and Syphilis.*

JOHN G. DOWNING, M.D., *Clinical Instructor in Syphilis.*

BERNARD APPEL, M.D., *Clinical Instructor in Syphilis.*

ALMA A. BINASCO, M.D., *Assistant in Dermatology.*

CARL A. DAHLEN, M.D., *Assistant in Syphilis.*

#### Required Courses

##### THIRD YEAR

The large amount of clinical material which is available in the out-patient department makes it possible to demonstrate all of the common, and many of the unusual dermatoses; and the large clinics for syphilis give unlimited opportunity for observing the manifestations of this disease and the methods of treatment. The entire work in this department is covered in the third year.

Eighteen lectures on the etiology, histo-pathology, symptoms and treatment of diseases of the skin, and two lectures on syphilis. Once a week. O.P.D. 20 hours. DRs. LEE and JACOBY.

Clinics throughout the year at the O.P.D. Each student receives sixty-two hours of clinical instruction. 62 hours. THE STAFF.

#### SURGERY

J. EMMONS BRIGGS, M.D., *Professor of Surgery.*

THOMAS E. CHANDLER, M.D., *Associate Professor of Surgery.*

CHARLES T. HOWARD, M.D., *Associate Professor of Surgery.*

LEROY M. S. MINER, D.M.D., M.D., *Associate Professor of Stomatology*

CLARENCE CRANE, M.D., *Assistant Professor of Surgery.*

WILLIAM K. S. THOMAS, M.D., *Assistant Professor of Clinical Surgery.*

RALPH C. WIGGIN, M.D., *Assistant Professor of Genito-Urinary Surgery.*

CHAS. A. EATON, M.D., *Lecturer on Surgical Pathology.*  
 SAMUEL W. ELLSWORTH, M.D., *Lecturer on Radiology.*  
 CLIFFORD D. HARVEY, M.D., *Instructor in Surgery.*  
 MARY A. LEAVITT, M.D., *Instructor in Anaesthesia.*  
 SAMUEL N. VOSE, M.D., *Instructor in Genito-Urinary Surgery.*  
 ELEANOR B. FERGUSON, M.D., *Clinical Instructor in Anaesthesia.*  
 DAVID I. FRANKEL, M.D., *Clinical Instructor in Surgery.*  
 MILO C. GREEN, M.D., *Clinical Instructor in Surgery.*  
 HARRY J. LEE, M.D., *Clinical Instructor in Surgery.*  
 HAROLD L. LELAND, M.D., *Assistant in Genito-Urinary Surgery.*

The course is planned to compass the entire field of surgery. The work is systematically arranged and carefully correlated in order to prevent unnecessary duplication and to be sufficiently comprehensive so that the student may obtain a thorough training in the essentials of the subject.

Instruction in this department begins in the first year with Elementary Surgery, followed in the second and third years by lectures, recitations, and practical instruction in the hospital and out-patient department. In the fourth year the teaching is entirely clinical and consists of clinics, ward walks, clinical clerk service, surgical-pathological conferences, anaesthesia, and the laboratory work required in the scientific investigation of each case studied.

Clinical instruction in surgery extends throughout the year, the class being divided into small sections in order that individual attention may be given to each student. The student personally examines and studies his patients, makes complete histories, physical examinations and laboratory tests, and makes detailed written records both pre- and post-operative. In the ward walks he receives instruction in differential diagnosis, the instructor discussing each case with the group. The student accompanies his patient to the operating room, presents the case to the section, and acts as anaesthetist, assistant, or onlooker. On subsequent days, he visits his patients, makes records of progress, and suggests treatment. The student's records when verified by the Staff become the official hospital records.

An ample amount of clinical material is available and by this plan each student comes into close contact with a large variety of surgical conditions which he is required to study exhaustively from every standpoint, under close personal supervision.

### Required Courses

#### FIRST YEAR

**Elementary Surgery.** Lectures on minor surgery are introductory to advanced work; bandaging, first-aid methods, the use of surgical apparatus and dressings, asepsis, antisepsis, ligatures, sutures, etc. *First semester.* 32 hours. DR. HARVEY.

#### SECOND YEAR

**Surgical Pathology.** Lectures, supplemented by laboratory exercises in the Pathological Department. Trauma, hemorrhage, sepsis, and the process of wound repair, inflammation and suppuration in their various manifestations, etc. *First semester.* 16 hours. DR. EATON.

**Fractures and Dislocations.** Vide "Orthopedic Surgery."

**Surgical Examination and History Taking.** 16 exercises. DRs. HARVEY and FRANKEL.

## THIRD YEAR

**General Surgery.** A systematic course of illustrated lectures and recitations covering general surgery of the head, neck, thorax, and abdomen. Four hours weekly. 92 hours. DR. BRIGGS and ASSOCIATES.

**Surgery of the Brain, Spinal Cord, and Peripheral Nerves.** Eight lectures. *First semester.* 8 hours. DR. C. T. HOWARD.

**Surgical Diseases of the Vascular System, Osseous System, and Lymphatics.** Eight lectures. *Second semester.* 8 hours. DR. CHANDLER.

**Surgery of the Large Intestine and Rectum.** Eight lectures. *Second semester.* 8 hours. DR. CRANE.

**Stomatology.** Four lectures. *First semester.* 4 hours. DR. MINER.

**Genito-Urinary Surgery.** Lectures, quizzes, and demonstrations, with practical instruction in the use of the cystoscope. Supplemented by clinical instruction in the fourth year. *First semester.* 8 hours. DR. WIGGIN and ASSISTANTS.

**Roentgenology.** Lectures and demonstrations in the theory and general practice of roentgenology. *Second semester.* 10 hours. DR. ELLSWORTH.

**General Surgery, Dispensary Clinics.** Clinical instruction is given in the surgical clinics, including history taking, physical examination and diagnosis, and the treatment of ambulatory surgical cases. Class in small sections. O.P.D. Each student 24 hours. THE STAFF.

**Urology.** (Clinical.) 16 hours. DR. WIGGIN and ASSISTANTS.

## FOURTH YEAR

**Clinical Surgery.** An intensive course of ten weeks for each section. Each student devotes his entire day to this work during a period of ten weeks, being assigned to certain patients whose progress he follows from admission to discharge from the hospital.

For each student, in general surgical clinics, 9 hours per week, 90 hours; ward walks, 6 hours per week, 60 hours; clinical clerking and laboratory exercises, 18 hours per week, 180 hours; total 330 hours. M.H.H. DRs. BRIGGS, C. T. HOWARD, CHANDLER, CRANE, LEE, and ASSISTANTS.

**Roentgenology.** Laboratory work and practical demonstration of the principle of radiographic technique and plate interpretation. 30 hours. DR. ELLSWORTH.

## ORTHOPEDIC SURGERY

ALONZO G. HOWARD, M.D., *Professor of Orthopedic and Fracture Surgery.*

SAMUEL L. MARNOY, M.D., *Instructor in Orthopedic and Fracture Surgery.*

W. H. CLEWLEY, M.D., *Assistant in Orthopedic Surgery.*

HARRY H. BUTLER, M.D., *Assistant in Orthopedic Surgery.*

## Required Courses

The lectures in this department briefly cover the subjects of injuries, diseases, and deformities of the spine and extremities, special attention being given to the most common conditions, such as tuberculosis of the joints, poliomyelitis, rachitic and

static deformities and fractures. The application of plaster and other splints, physiotherapy and hydro-therapy, are demonstrated.

The Hospital and O.P.D. furnish a large amount of clinical material which is available for operative and mechanical treatment.

#### SECOND YEAR

Orthopedic examination and history taking. 2 hours. DR. CLEWLEY.

#### THIRD YEAR

Thirty-six lectures. 36 hours. DR. A. G. HOWARD.

Lectures on Fractures and Dislocations and quizzes. 20 hours. THE STAFF.

Clinics: Tuesdays, Thursdays, and Saturdays, O.P.D. 24 hours each student.

DRS. HOWARD, MARNOY, CLEWLEY, and BUTLER.

#### FOURTH YEAR

Operative clinics, ward walks, and clinical clerkships. M.H.H. 60 hours. DRS. HOWARD, MARNOY, and CLEWLEY.

### OPHTHALMOLOGY

ALBERT W. HERR, M.D., *Professor of Ophthalmology.*

WILLIAM D. ROWLAND, M.D., *Associate Professor of Ophthalmology.*

JOSEPH E. STERNBERG, M.D., *Assistant Professor of Clinical Ophthalmology.*

HENRY M. EMMONS, M.D., *Clinical Instructor in Ophthalmology.*

J. J. SKIRBALL, M.D., *Clinical Instructor in Ophthalmology.*

R. W. FRENCH, M.D., *Clinical Instructor in Ophthalmology.*

#### Required Courses

In the didactic work in this department, May's "Diseases of the Eye" is used as a text-book, and recitations and quizzes are held in the third year, with illustrative cases from O.P.D. In the clinical work, special attention is given to external diseases of the eye and the diagnosis of iritis and glaucoma. Students are taught the use of the ophthalmoscope and the elements of refraction, and attend the operative clinics at the Hospital. Operative cases such as cataract, glaucoma, and heterotropia are studied at the O.P.D. both before and after operation. The clinical material is abundant.

#### THIRD YEAR

One didactic lecture, recitation, or quiz each week for fifteen weeks. 15 hours. DR. ROWLAND.

#### FOURTH YEAR

The class is divided into small sections, each student receiving sixty hours of clinical instruction. O.P.D. 60 hours. THE STAFF.

Practical examination. Fourth year students. DRS. HERR, ROWLAND and STERNBERG.

**LARYNGOLOGY AND RHINOLOGY**

- GEORGE B. RICE, M.D., *Professor of Laryngology.*  
CONRAD SMITH, M.D., *Associate Professor of Clinical Laryngology.*  
ELMON R. JOHNSON, M.D., *Clinical Instructor in Laryngology.*  
CHARLES W. BUSH, M.D., *Clinical Instructor in Laryngology.*  
ROLAND O. PARRIS, M.D., *Clinical Instructor in Laryngology.*  
WALDO W. WALKER, M.D., *Clinical Instructor in Laryngology.*  
LEIGHTON F. JOHNSON, M.D., *Assistant in Laryngology.*

**Required Courses**

Didactic lectures and clinical instruction cover the inflammatory diseases of the nose and throat; malformations, hypertrophies and growths; neuroses of the upper air tract; diseases and operations in the accessory sinuses and lymphoid ring; syphilis, tuberculosis, and malignant diseases affecting the upper respiratory tract; and the local and internal treatment of nose and throat conditions.

**THIRD YEAR**

One didactic lecture each week for sixteen weeks. 16 hours. DR. RICE.

**FOURTH YEAR**

The class is divided into sections, each student being required to attend forty clinical demonstrations. M.H.H., O.P.D. 40 hours. DRs. SMITH, JOHNSON, BUSH, PARRIS, and WALKER.

**OTOLOGY**

- HOWARD P. BELLOWS, M.D., *Professor of Otology.*  
FREDERICK W. COLBURN, M.D., *Associate Professor of Clinical Otology.*  
HAROLD L. BABCOCK, M.D., *Instructor in Clinical Otology.*  
BARNET M. WEIN, M.D., *Assistant in Clinical Otology.*

**Required Courses**

The instruction in this department consists of didactic lectures upon the most important pathological conditions of the ear and their treatment, supplemented by clinical instruction in the methods of aural examination, diagnosis, and treatment.

**THIRD YEAR**

One didactic lecture each week for eight weeks. Two of these lectures are devoted to the external ear, four to the middle ear, and two to the internal ear. 8 hours. DR. BELLOWS.

**FOURTH YEAR**

Clinics in sections. Each student receives twenty clinical exercises during the year at the O.P.D. 20 hours. DRs. COLBURN, BABCOCK, and WEIN.

## OBSTETRICS

- GEORGE H. EARL, M.D., *Professor of Obstetrics.*  
 EDWIN P. RUGGLES, M.D., *Professor of Clinical Obstetrics.*  
 WILLIAM A. HAM, M.D., *Associate Professor of Clinical Obstetrics.*  
 EDWIN W. SMITH, M.D., *Assistant Professor of Clinical Obstetrics.*  
 J. C. V. FISHER, M.D., *Instructor in Obstetrics.*  
 HAROLD E. DIEHL, M.D., *Instructor in Clinical Obstetrics.*  
 JOELLE C. HIEBERT, M.D., *Instructor in Clinical Obstetrics.*  
 C. WESLEY SEWALL, M.D., *Instructor in Obstetrics.*  
 PIERCE J. DUNPHY, M.D., *Assistant in Obstetrics.*  
 JOHN J. ELLIOTT, M.D., *Assistant in Obstetrics.*  
 ANTON R. FRIED, M.D., *Assistant in Obstetrics.*  
 JAMES C. JANNEY, M.D., *Assistant in Obstetrics.*  
 WARREN S. SHIELDS, M.D., *Assistant in Obstetrics.*  
 SIGMUND SIMONS, M.D., *Assistant in Obstetrics.*

## Required Courses

The instruction in this department is given in the third and fourth years and includes lectures, recitations, antepartum clinics, demonstrations, ward walks, and clinical clerkships. Each candidate for the degree of M.D. must have attended at least six maternity cases, provision having been made in the district of the O.P.D. and at the Medical Mission for the students to deliver these cases under supervision.

## SECOND YEAR

Normal Obstetrics. 40 hours. DRs. SEWALL and FISHER.

## THIRD YEAR

Practical and Abnormal Obstetrics including pathology. 20 hours. DRs. EARL and HAM.

In the antepartum clinics the class is divided into small sections; histories are taken, clinical tests made, position determined and measurements recorded. Daily, 10-12 A.M. Twenty-four hours for each student. R.M.H. 24 hours. DRs. RUGGLES, HAM, SMITH, DIEHL, and ASSISTANTS.

A course in **Operative Obstetrics** is conducted on manikins and the cadaver. Each student ten hours. 10 hours. DR. RUGGLES.

## FOURTH YEAR

**Clinical Obstetrics.** Ward walks and clinical clerkships. Normal and abnormal deliveries and obstetrical operations demonstrated. Each student forty hours. R.M.H. 40 hours. DRs. RUGGLES, HAM, and ASSISTANTS.

**District Service.** This includes attendance on maternity cases in the homes of the patients under supervision in the district served by the Robinson Memorial and the Medical Mission. Six cases required. THE STAFF.

## GYNAECOLOGY

- GEORGE R. SOUTHWICK, M.D., *Professor of Gynaecology.*  
 DEWITT G. WILCOX, M.D., *Professor of Gynaecology.*  
 SAMUEL R. MEAKER, M.D., *Associate Professor of Gynaecology.*  
 ALMA A. BINASCO, M.D., *Assistant in Gynaecology.*  
 HAROLD E. DIEHL, M.D., *Assistant in Gynaecology.*  
 J. C. V. FISHER, M.D., *Assistant in Gynaecology.*  
 JAMES C. JANNEY, M.D., *Assistant in Gynaecology.*  
 EDWARD KAPLAN, M.D., *Assistant in Gynaecology.*  
 JOSEPH H. MEZER, M.D., *Assistant in Gynaecology.*

## Required Courses

The course in Gynaecology consists of lectures, work in the out-patient clinic, case teaching, and the observation of house cases in the hospital. The large amount of clinical material available in the Women's Clinic at the Massachusetts Homeopathic Hospital, and in the Gynaecological Clinic at the Boston Dispensary makes it possible to demonstrate most of the conditions which are discussed.

During the second year three lectures are given describing the general scope of the field of gynaecology and its inter-relations with other departments of practice, and dealing particularly with the essentials of history taking in gynaecological cases.

In the third year the etiology, diagnosis and treatment of the common and important pathological conditions within the pelvis form the basis of the lectures. Emphasis is laid upon history taking, examination, and methods of physical diagnosis and treatment in the out-patient clinics.

Case teaching is conducted in the fourth year. The history and physical findings in selected cases are presented, as a basis for the discussion and differential diagnosis. Attendance is also required upon operations and ward walks.

## SECOND YEAR

**General Scope of Field of Gynaecology.** Lectures. 3 hours. *Second semester.* DR. MEAKER.

## THIRD YEAR

**Lectures.** Lectures on the etiology, diagnosis and treatment. Two hours each week for eleven weeks. *First semester.* 22 hours. DRs. SOUTHWICK, WILCOX, and MEAKER.

**Clinical Gynaecology.** History taking, examination of patients, etc. Two hours a day for two weeks in sections throughout the year. 24 hours. THE STAFF.

## FOURTH YEAR

**Case Teaching.** History and physical findings in selected cases, with actual diagnosis, differential diagnosis and end result. Once a week for ten weeks to sections of one-third of the class throughout the year. 10 hours. DR. MEAKER and ASSISTANTS.

**Clinical Gynaecology.** Clinical clerkships and ward walks. One day a week for ten weeks to small sections of the class. 30 hours. SURGICAL STAFF. (Time not included in surgical figures.)

**SPECIAL EXERCISES**

Committee in charge:

DR. C. T. HOWARD, *Associate Professor of Surgery.*

DR. JOSEPH CHANDLER, *Associate Professor of Chemistry.*

DR. LELAND C. WYMAN, *Assistant Professor of Physiology.*

During the year it is necessary to introduce special exercises from time to time and arrangements for this work are made by the above members of the Faculty.

This work includes a weekly assembly of the entire school from 12 to 1 on Wednesdays, at which time there is given a presentation of the topic by a member of the student body or someone outside the teaching force of the School.

Many of these exercises are biographic in nature.

There is also included under this heading the instruction in the use of the library and any such special technical procedures as may seem advisable.

### General Information

To reach the Medical School:

Take Elevated train going south to Northampton Street, walk three blocks north on Washington Street to East Concord Street, turn to the right on East Concord Street to number 80.

Students can live as economically in Boston as in any city of its size; and personal expenses will be determined in a great measure by the tastes and inclinations of the individuals.

Students are urged to arrive sufficiently early to enable them to obtain satisfactory rooming accommodations.

Information regarding rooms may be obtained on arrival at the Y.M.C.A., and at certain rooming registries in the vicinity of the School.

Young women who are desirous of reducing their expenses to the minimum are referred to the Young Women's Christian Association, 40 Berkeley Street, also 68 Warrenton Street; and to the Franklin Square House, Franklin Square.

It should be noted that each student is expected to provide himself with certain equipment including a microscope. This microscope must be of a recognized standard design and should include two eye-pieces, three objectives (one oil immersion) and an Abbe condenser with sub-stage attachments. *Such microscopes may be purchased from the University Bookstore at a discount. In a few instances used instruments are available.*

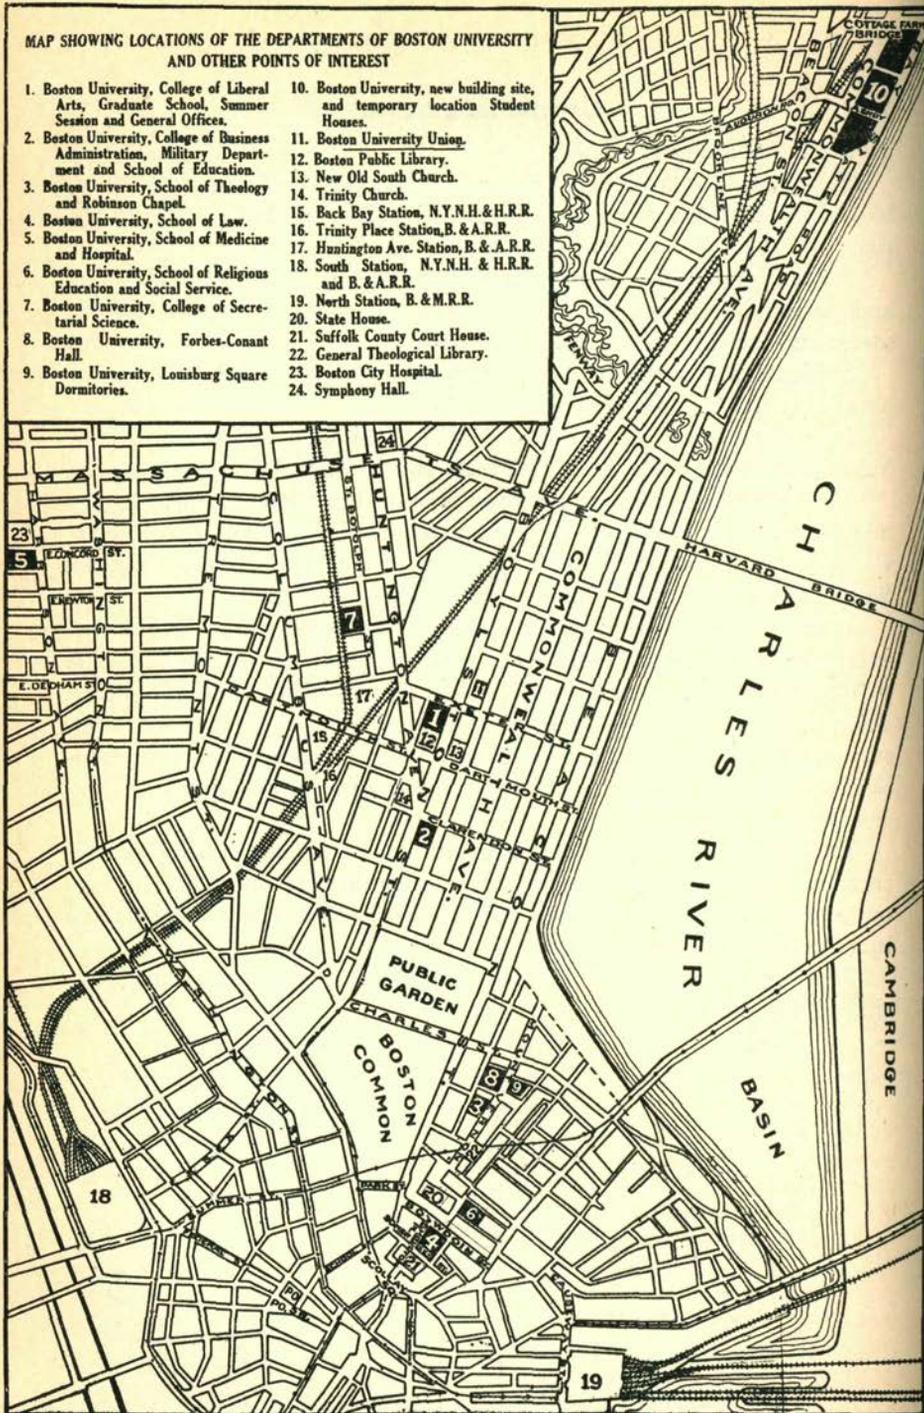

Each student is asked to read carefully the various sections of this catalogue, particularly those which have to do with the admission requirements and payment of fees, in order to prevent delay at registration because of insufficient funds.

This catalogue is a tentative announcement and as such is subject to change without notice.

MILO C. GREEN, M.D., Registrar,  
*Boston University School of Medicine,  
80 East Concord Street.*

## LISTS OF STUDENTS

## GRADUATES AS DOCTORS OF MEDICINE

June 16, 1924

BARTON, FRANK EUGENE, JR., A.B.	Rockport, Mass.
BLAIS, ROBERT ERNEST, A.B.	Dover, N. H.
BROWNE, GEORGE VINCENT.	Long Island, N. Y.
CANTER, BENJAMIN MEYER, A.B.	Gardiner, Maine
CAPLAN, LOUIS, A.B.	Albany, N. Y.
CICMA, HARRY GEORGE, S.B.	Marlborough, Mass.
COLCORD, MARSHALL, A.B.	Schenectady, N. Y.
CROTTY, MARTIN FRANCIS, A.B.	Worcester, Mass.
DAVIAU, ARTHUR RAYMOND.	Waterville, Maine
DI LORIO, BENJAMIN ANTONY.	Utica, New York
FIALKA, SOLOMON M.	New York City, N. Y.
FLETCHER, KENNETH STEELE, S.B., M.B.	Chicopee, Mass.
GOTTLIEB, JULIUS, S.B.	East Boston, Mass.
HARRIS, BERNARD BENJAMIN, Ch.B.	Jersey City, N. J.
HOLLOWAY, HOWARD JEAN, S.B.	Des Moines, Iowa
HUTCHISON, KENNETH THOMAS.	Monessen, Penn.
JACKSON, THOMAS NATHANIEL, JR.	Athens, Georgia
JAFFARIAN, JOHN PAUL.	Troy, New York
KORNBERG, MAURICE.	New York City, N. Y.
KRIEGER, WILLIAM LAWRENCE.	Baltimore, Md.
LAUB-GROSS, VICTOR FRED H., M.B.	Brooklyn, New York
LEFURGY, WILLIAM GODFREY.	Boston, Mass.
LIVINGSTONE, DOROTHY, E.B.S., Ch.B.	Woodstock, Vermont
MCGREGOR, GEORGE GLEASON.	Bethlehem, N. H.
MANNING, JOSEPH S. J., JR.	New York City, N. Y.
MARGULIS, BENJAMIN A.	New York City, N. Y.
MARINO, FRANK FREDERICK.	New Rochelle, N. Y.
MATEZ, HENRY, Ch.B.	Brooklyn, N. Y.
NATH, MORRIS.	Winthrop, Mass.
NIMELMAN, ANNA R.	New York City, N. Y.
OSTERHELD, ROGER G.	Stoughton, Wisconsin
OSTRUM, ALGOT.	New York City, N. Y.
PIASTA, PETER FERDINAND.	Webster, Mass.
POHL, SAMUEL HAROLD.	Brooklyn, New York
PROVOST, ADOLPHE JOSEPH.	Auburn, Maine
RAINE, FORRESTER, A.B.	Berea, Kentucky
RAMSAY, JAMES ALEXANDER, A.B.	Yonkers, New York
ROBBINS, WALDO WHITING, Ph.B.	Hingham, Mass.
SELINSKY, HERMAN GITLIN.	New York City, N. Y.
SLEEPER, FRANCIS HARPER.	Houlton, Maine
SNEIERSON, HYMAN, S.B., Ch.B.	Laconia, N. H.
STANCHI, EUGENE ACHILLES, Ch.B.	Brooklyn, New York
STIERMAN, CHARLES.	New York City, N. Y.

SYBICO, GLICERIO DAAN, A.B.....	Philippine Islands
WILBUR, FRANKLIN LLOYD, S.B.....	Asbury Park, N. J.
ZARIPHES, CONSTANTINE A.P., S.B.....	LOWELL, MASS.

## GRANTED THE DEGREE OF BACHELOR OF SURGERY

CAPECE, NICHOLAS JOSEPH, S.B.....	Milford, Mass.
COOPER, SOLOMON.....	Brooklyn, N. Y.
CORSINI, TONINO VINCENT.....	North Plymouth, Mass.
GILMORE, EDWARD BERNARD.....	Brockton, Mass.
GREENWALD, MURRAY.....	Brooklyn, N. Y.
HARDWICK, RACHEL LOUISE, S.B.....	Quincy, Mass.
PRICE, HELEN OLIVIA, A.M.....	Providence, R. I.

## CLASS OF 1925

AMOS, WILLIAM HAROLD.....	Hillburn, N. Y.
A.B., Lincoln University	
ANDREWS, HAROLD EDWIN.....	Cortland, N. Y.
BALIMAN, VORHA MAY.....	St. Libory, Nebraska
A.B., Grand Island College, Nebraska	
S.B., Ottawa University, Kansas	
BARTHA, NICHOLAS PAUL.....	New York City, N. Y.
BELIVEAU, ROMEO ALBERT.....	Lewiston, Maine
BLOOM, HENRY R.....	Lowell, Mass.
S.B., University of Rochester	
BOWMAR, HARRIS EWING.....	Canton, Mass.
BROWN, BYRON FREEMAN.....	Presque Isle, Maine
BURKE, EDMUND BYRON.....	Dorchester, Mass.
BURROWS, HOWARD ALMOND.....	Deposit, New York
CAPECE, NICHOLAS JOSEPH.....	Milford, Mass.
S.B., Boston University	
Ch.B., Boston University	
CARROLL, JAMES EDWARD.....	New Haven, Conn.
S.B., Colgate University	
CARROLL, JOHN HENRY.....	Long Island, N. Y.
CASELNOVA, VITO EDWARD.....	Brooklyn, N. Y.
CHAMBERLIN, IRA IOWA.....	Southampton, Mass.
COOPER, SOLOMON.....	Brooklyn, N. Y.
Ch.B., Boston University	
CORSINI, TONINO VINCENT.....	North Plymouth, Mass.
Ch.B., Boston University	
DESJARDINS, ANATOLE.....	Brunswick, Maine
DEVITO, ANTHONY WILLIAM.....	Brooklyn, New York
GILMORE, EDWARD BERNARD.....	Brockton, Mass.
Ch.B., Boston University	
GREENWALD, MURRAY.....	Brooklyn, N. Y.
Ch.B., Boston University	
HARDWICK, RACHEL LOUISE.....	Quincy, Mass.
S.B., Ch.B., Boston University	

HO, RUTH SIU-GING .....	Foochow, China
A.B., Cornell College, Iowa	
HUONG, SARAH SIUH-GING.....	Federated Malay States
A.B., Coe College, Iowa	
JOHNS, JUANITA PEARL.....	Ithaca, N. Y.
A.B., Cornell University	
JOY, RUSSELL ANTHONY.....	Fredonia, N. Y.
KATZEFF, MIRIAM GERTRUDE .....	Mattapan, Mass.
KEEFE, RAYMOND STARKEY.....	Hartford, Conn.
A.B., Holy Cross College, Worcester	
KEENE, CARROLL HERBERT.....	Head Tide, Maine
A.B., Bowdoin College	
KING, LEOPOLD FIRMAN.....	Waterville, Maine
LESSEN, WILLIAM.....	Syracuse, N. Y.
LESTRANGE, WILLIAM HENRY.....	Brooklyn, N. Y.
LEVENE, GEORGE.....	Boston, Mass.
LOTHROP, EATON SHAW.....	Cape Elizabeth, Me.
LO VERME, JOHN.....	East Boston, Mass.
S.B., Boston University	
LYNCH, LEO J.....	Malden, Mass.
MANTON, ANSTIS PEARCE DYER.....	Providence, R. I.
MARTIN, JOHN SIDNEY.....	Medomak, Maine
MCLAUGHLIN, CECIL CLEOPHUS.....	Medford, Mass.
MELTZER, SAMUEL.....	Brooklyn, N. Y.
PRICE, HELEN OLIVIA.....	Providence, R. I.
A.B., Barnard College, N. Y. C.	
A.M., Brown University, R. I.	
Ch.B., Boston University	
RAFUSE, JANICE.....	East Milton, Mass.
REILLY, ELINOR FURNIVALL.....	Boston, Mass.
S.B., Simmons College	
REYNOLDS, PHILIP ALLEN.....	Los Angeles, Cal.
ROSENBERG, GEORGE .....	New York City, N. Y.
SCALISE, ANTHONY JOSEPH.....	New York City, N. Y.
SMITH, HOLLIS RANDALL.....	Natick, Mass.
S.B., Bowdoin College	
STETTLER, WAYNE DEWEY.....	Slatington, Penn.
A.B., Muhlenberg College	
Allentown, Penn.	
THOMPSON, LAWRENCE EVERETT.....	Hartford, Conn.
WILKINSON, MARION AGNES DINWOODIE .....	West Roxbury, Mass.
S.B., Simmons College	

## CLASS OF 1926

ALBERT, EDMUND ALFRED.....	Madawaska, Maine
ARBOR, BENJAMIN.....	New York City
BARTON, ROBERT BURNS.....	Cambridge, Mass.
S.B., Harvard University	
CANTINI, RAPHAEL.....	Brooklyn, N. Y.

- CARISSIMO, MARIUS F..... Staten Island, N. Y.  
Ph.G., Columbia College of Pharmacy
- CHAVES, JOSE..... Isabella, Porto Rico
- CITRINO, ROBERT JOSEPH..... New York City, N. Y.
- CONRAD, EGBERT VICTOR..... Providence, R. I.
- COURTISS, MORRIS..... Revere, Mass.  
S.B., Harvard University
- DEARMIT, LILLIAN..... Sharpsville, Penn.  
A.B., Grove City College, Penn.
- DERKOWSKI, ANTHONY J..... Troy, N. Y.
- DOOLITTLE, LAWRENCE HOWARD..... New Britain, Conn.  
S.B., Wesleyan University, Conn.
- DUMAS, CHARLES E..... Ware, Mass.  
A.B., Assumption College, Worcester
- DUNLAP, CLARENCE J..... Farmington, Maine  
S.B., University of Maine
- ELTON, NORMAN WILLIAM..... Dorchester, Mass.  
A.B., Harvard University
- FARRALL, BYRON HUNTLEY..... Batavia, N. Y.  
A.B., Oberlin College
- GILMORE, ROBERT OWENS..... Brockton, Mass.  
A.B., Holy Cross College, Worcester
- GLENN, CHESTER LLOYD..... Brockton, Mass.
- GOVE, WILFRED FREEMAN..... Worcester, Mass.
- GREENWALD, IRVING..... New Rochelle, N. Y.  
A.B., Columbia University
- GREWAL, JOGINDAR SINGH..... Punjab, India  
S.B., Government College, India
- GROSS, SIGMUND..... Bronx, New York City
- ISRAEL, CYRIL..... Millville, Mass.  
S.B., Worcester Polytechnic Inst., Worcester
- JACOBSON, BELLE ELIZABETH..... New York City  
A.B., Hunter College, New York
- KALMAN, MANUEL..... Bronx, N. Y. C.
- KAPOPOULOS, GARIFALOS JOHN..... Clinton, Mass.
- KEITH, THEODORE KENT..... Newton Highlands, Mass.
- KRAMER, MAX..... Brooklyn, N. Y.
- LEE, SEUNG SHIN..... Honolulu, Hawaii
- LEVY, HAROLD H..... Ansonia, Conn.
- LINCOLN, ROBERT EDWARD..... Mattapan, Mass.
- LYE, JAMES CHUNG-TIEN..... Canton, China
- MARKIN, JAMES MORTIMER..... Rochester, N. Y.
- MCINTOSH, ROLAND BUCHANAN..... Portland, Oregon  
D.D.S., Northwestern University
- MESERVE, FAITH LUCENA..... Kendall Green, Mass.  
A.B., Smith College
- MILLMAN, MAX..... Springfield, Mass.  
A.B., Clark University, Worcester

MORRELL, ARCH HIRAM.....	Gardiner, Maine
A.B., Bowdoin College	
PALADINO, JOSEPH S.....	Lynn, Mass.
PAUL, LOUIS.....	Roxbury, Mass.
PERKINS, CLIFTON T.....	Dover, N. H.
A.B., Bates College	
PUGLISI, ANTHONY SALVATORE.....	Brooklyn, N. Y.
ROTHSTEIN, MORRIS JACOB.....	Brooklyn, N. Y.
S.B., Boston University	
SHEEHAN, WILLIAM ARTHUR.....	Boston, Mass.
A.B., Boston College	
SNIDER, MAXWELL CONRAD.....	Rochester, N. Y.
STEARNS, DAVID BELFORD.....	Brookline, Mass.
A.B., Harvard University	
STEFFENS, CHARLES T.....	Brooklyn, N. Y.
WEBBER, CHARLES SUMNER.....	Detroit, Mich.
WELLS, RALPH HORACE.....	Brighton, Mass.
WIESTLING, HELEN MERWIN.....	Wheeling, W. Va.
A.B., West Virginia University	

## CLASS OF 1927

ARENBERG, HYMAN.....	Brooklyn, N. Y.
AXELL, JOSEPH.....	Brooklyn, N. Y.
BARATT, NATHAN.....	New York City
BECKER, LOUIS.....	New York City
BILINSKY, BERNARD.....	Brooklyn, N. Y.
BLAUVELT, GRACE BROWN.....	Ridgewood, N. J.
BLYTH, HENRY H. A.....	Cohoes, N. Y.
A.B., Syracuse University	
CHAN, EUGENE.....	Hongkong, China
CHRISTIE, WELMAN BLAKE.....	Boston, Mass.
CLAPP, ROLAND DAVIS.....	West Medford, Mass.
A.B., Wheaton College, Wheaton, Ill.	
COBB, NORMAN ERNEST.....	Calais, Maine
COOPER, EMILY.....	Thornton-le-Fylds, England
DAVIDHOFF, MORRIS.....	Brooklyn, N. Y.
S.B., College of the City of N. Y.	
DEROW, HARRY AARON.....	Brooklyn, N. Y.
DONOHUE, JOHN JOSEPH.....	Auburn, R. I.
A.B., Holy Cross College, Worcester	
FISKE, MADELINE.....	Natick, Mass.
A.B., Vassar College	
FORD, EDITH MARION.....	Chardon, Ohio
A.B., Mt. Union College, Ohio	
A.M., Boston University	
FOYE, LUCIAN CURTIS.....	Somerville, Mass.
S.B., Boston University	
FREEDMAN, SAUL.....	Salem, Mass.

GROSSMAN, HERMAN PAUL.....	Providence, R. I.
A.B., Harvard University	
HAUBRICH, BERNARD PAGE.....	Claremont, N. H.
S.B., Dartmouth College	
IANNANTUONI, ADOLPH JOSEPH.....	Waterbury, Conn.
IPPOLITO, VINCENT.....	New York City
KLEIN, BENJAMIN I.....	Brooklyn, N. Y.
LEVINE, GEORGE.....	Brooklyn, N. Y.
LIOTTA, SALVATORE.....	Brooklyn, N. Y.
A.B., Cornell University	
MAHER, JOHN MATTHEW.....	New Haven, Conn.
A.B., Holy Cross College, Worcester	
NADAL, JOSE GRAU.....	Mayaguez, Porto Rico
NIGRO, HENRY.....	Revere, Mass.
S.B., Mass. Agricultural College	
OLSON, JOSEPH MERRILL.....	Salt Lake City, Utah
ORTON, LYMAN ROSS.....	Athol, Mass.
PLUMER, HERBERT EDRIC.....	Union, Maine
POSELL, EDWARD AARON.....	Brooklyn, N. Y.
S.B., College of the City of N. Y.	
REMY, LORENZO ALBERT.....	Webster, Mass.
A.B., Assumption College, Worcester	
RIERA, SALVADOR.....	Mayaguez, Porto Rico
RITCHIE, MORRIS.....	Chelsea, Mass.
S.B., Harvard University	
RONKA, ENSIO KARL FREDERICK.....	Gloucester, Mass.
SANTORA, PHILIP JOSEPH.....	Newark, N. J.
SCHWARTZ, SAMUEL.....	Brooklyn, N. Y.
SERVETNICK, ABRAHAM.....	Bradford, Mass.
A.B., Harvard University	
SILVERSTEIN, LOUIS B.....	Brooklyn, N. Y.
SLYSZ, LADISLAUS BERNARD.....	New Britain, Conn.
STARKS, HAMLIN ALANSON.....	Chatham, N. Y.
A.B., University of Michigan	
STOUT, RICHARD BROOKS.....	W. Lafayette, Indiana
SUGARMAN, JACOB.....	New York City
TAURO, ANTONIO LUIGI.....	Lynn, Mass.
TEGELBERG, JULIUS JOHN.....	Worcester, Mass.
UVITSKY, IRVING HARRY.....	Bridgeport, Conn.
WEINGER, MORRIS AARON.....	New York City
WHITNEY, ARTHUR THOMAS.....	Houlton, Maine
A.B., Bowdoin College	

## CLASS OF 1928

ABBOTT, CHARLES ISAAC.....	Boston, Mass.
ABRAMS, JACOB IRVING.....	Boston, Mass.
ADAMS, CLIFFORD BURDETT.....	New Haven, Conn.
A.B., Wesleyan University, Conn.	
AREBIE, ANTHONY MICHAEL.....	Dedham, Mass.
ARNOLD, SALVATORE PETER.....	New York City

BARRY, WILLIAM JOSEPH.....	Roxbury, Mass.
A.B., Boston College	
BERKOWITZ, MOSES.....	Brooklyn, N. Y.
BIRNBAUM, JOSEPH WESLEY.....	Detroit, Michigan
BLADUELL, HECTORE ROBERTS.....	San Juan, Porto Rico
BRUNO, MAGNE OSMUND.....	Lowell, Mass.
A.B., State College, Halmstad, Sweden	
BURCKEL, ARTHUR WALTER.....	Lawrence, Mass.
S.B., Colby College	
BUTLER, WILBERT ENOCH.....	Pickford, Michigan
CHAPMAN, ALBERT WILLIAM.....	Roxbury, Mass.
A.B., Boston College	
CHURNEY, OTTO LEONARD.....	Deming, Washington
S.B., University of Washington, Seattle	
COFFIN, SILAS ALLAN.....	Gray, Maine
COURNOYER, ROMEO JEAN.....	Spencer, Mass.
A.B., Assumption College, Worcester	
COX, JAMES HENRY.....	Providence, R. I.
DAY, KENNETH KNOWLTON.....	Waban, Mass.
DESIMONE, CARL ALBERT.....	Brighton, Mass.
A.B., Boston College	
DUPRE, GEORGE GUYON.....	Brockton, Mass.
A.B., Assumption College, Worcester	
FELDMAN, JACOB.....	Brooklyn, N. Y.
GRUSKIN, HARRY.....	Brooklyn, N. Y.
GUARDO, JAMES LESLIE.....	Roslindale, Mass.
S.B., Mass. Institute of Technology	
JOHNSON, ELMON REUBEN, JR.....	Wollaston, Mass.
KARLSBERG, ISADOR JOSEPH.....	Dorchester, Mass.
KATCHER, MORRIS.....	Brooklyn, N. Y.
KONIKOV, WILLIAM MORRIS.....	Boston, Mass.
A.B., Harvard University	
LANCASTER, HARLAND FRANCIS.....	Groveland, Mass.
S.B., Boston University

## ALUMNI ASSOCIATION

OF

## BOSTON UNIVERSITY SCHOOL OF MEDICINE

INCORPORATED AUGUST 5, 1902

This Association includes all graduates of the School, and was formed for the purpose of promoting social and friendly relations between the Alumni, as well as to co-operate with the Faculty in maintaining a high standard of medical education.

In accordance with the By-Laws adopted at the annual meeting, 1902, "All graduates as doctors of medicine of Boston University School of Medicine shall, upon their graduation, become members of this Association."

"The annual assessment shall be one dollar."

"All members who, at the time of the annual meeting, are then in arrears for two years' dues shall cease thereafter to be members of this Association."

"Anyone who has once been a member of this Association, but has ceased to be such, shall again become a member upon application to the Secretary and payment of all dues remaining unpaid at the time his former membership terminated."

Considerable sums of money have from time to time been raised by individual subscriptions.

In 1898 a special appeal was made to the Alumni for a Scholarship Fund to establish three or four annual scholarships. A fund has been raised, the income of which is now available.

The annual business meeting of the Association is held some time during Commencement week, followed by the banquet and reunion of the Alumni. Other meetings may be called from time to time by the Executive Committee.

It is earnestly hoped the Alumni will interest themselves in the work of the Association and assist the officers in the furtherance of its objects.

All changes in address and items of interest relating to any Alumnus should be promptly sent to the *Secretary, Cecil W. Clark, M.D., Newtonville, Mass.*

The officers for the year ending June, 1924, are as follows:

President, THOMAS E. CHANDLER, M.D., Boston.

First Vice-President, CHARLES H. COLGATE, M.D., Rockland.
